December 3, 2020

To the School Board, Citizens, Employees, and Students of Inver Grove Heights Schools

INTRODUCTION

The following Comprehensive Annual Financial Report (CAFR) of Independent School District No. 199, Inver Grove Heights, Minnesota, also known as Inver Grove Heights Schools (the District), presents the financial position of the District as of June 30, 2020, and the results of its operations for the fiscal year then ended. This report is prepared in accordance with accounting principles generally accepted in the United States of America, and is audited in accordance with auditing standards generally accepted in the United States of America by a firm of licensed certified public accountants. State law requires the District to publish a complete set of audited financial statements within six months of the close of the District's fiscal year.

The District's financial statements are prepared in accordance with Governmental Accounting Standards Board (GASB) Statement No. 34, *Basic Financial Statements—and Management's Discussion and Analysis—for State and Local Governments*. The reader of this CAFR will notice that the two main financial statements created by this standard, the Statement of Net Position and Statement of Activities, do not contain numerous columns for various funds like the fund-based financial statements. These two statements consolidate much of the information contained in fund-based financial statements into statements which tend to answer the question: "Is the District better or worse off financially than it was the previous year?" A comparison of net position should help the reader in answering that question.

Also required as part of required supplementary information by GASB Statement No. 34 is the management's discussion and analysis (MD&A), which allows the District to explain, in layman's terms, its financial position and results of its operations for the past fiscal year.

This report consists of management's representations concerning the finances of the District. Consequently, management assumes full responsibility for the completeness and reliability of all information presented in this report. To provide a reasonable basis for making these representations, management of the District has established internal controls. The internal controls are designed to protect the District's assets from loss, theft, or misuse and to compile sufficient reliable information for the presentation of the District's financial statements in conformity with accounting principles generally accepted in the United States of America. Because the cost of internal controls should not be more than the benefits, the District's internal controls are designed to provide reasonable, rather than absolute, assurance that these financial statements will be free of material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

These financial statements have been audited by Malloy, Montague, Karnowski, Radosevich & Co., P.A., a firm of licensed certified public accountants. The goal of the independent audit was to provide reasonable assurance that the basic financial statements of the District for the fiscal year ended June 30, 2020 are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. The independent auditor concluded, based upon the audit, that there was a reasonable basis for rendering an unmodified opinion that the District's basic financial statements for the fiscal year ended June 30, 2020 are fairly presented in conformity with accounting principles generally accepted in the United States of America.

FEDERAL SINGLE AUDIT AND STATE COMPLIANCE AUDIT

The independent audit of the financial statements of the District was part of a broader, federally mandated "Single Audit" designed to meet the special needs of federal grantor agencies. The standards governing Single Audit engagements require the independent auditor to report not only on the fair presentation of the financial statements, but also on the audited district's internal controls and compliance with legal requirements, with special emphasis on internal controls and legal requirements involving the administration of federal awards. The District is also required to undergo an annual Minnesota state legal compliance audit under Minnesota Statutes § 6.65. These reports are available in a separate document.

REPORT FORMAT

This CAFR is presented in three sections: introductory, financial, and statistical. The introductory section contains this letter of transmittal, organizational chart, information on the School Board and administration, and the Association of School Business Officials (ASBO) International Certificate of Excellence in Financial Reporting Award. The financial section contains the independent auditor's report, MD&A, basic financial statements, required supplementary information, and combining and individual fund statements and schedules presented as supplemental information. The statistical section contains supplemental financial and other statistical data, generally presented on a multi-year basis.

Accounting principles generally accepted in the United States of America require that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of the MD&A. This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The MD&A of the District can be found immediately following the report of the independent auditors.

THE DISTRICT'S PROFILE

The District was formed in 1957 as residents in the area realized the need for a local high school. The consolidation of one-room schoolhouses formed the District. In 1960, Simley High School opened its doors to students. In 1971, a new Simley High School was built adjacent to what is now the middle school. The oldest parts of the middle school (the original Simley High School) have been replaced.

The District operates under an elected seven-member School Board. The School Board is elected on a nonpartisan basis. The School Board is responsible, among other things, for passing policies, adopting the budget, and hiring the Superintendent of Schools. The Superintendent of Schools is responsible for carrying out the policies of the School Board, for overseeing the day to day operations of the District, and for appointing the directors/principals of the various departments or schools.

The District is a suburban school district located 12 miles south of the City of St. Paul, Minnesota, and serves a general population of approximately 35,481, covers an area of about 22 square miles, and enrolled 3,543 students for the 2019–2020 fiscal year. In terms of number of students, the District is Minnesota's 55th largest school district. The District has one high school, one middle school, four elementary schools, and an early learning center.

The District provides a full range of public education services to students and families from birth to 21. These include regular and enriched academic education, special education, college in school, and career/vocational education. Food service and transportation are provided as supporting programs. The District's community education program includes Early Childhood, Family, and Adult Basic Education programs as well as a myriad of classes for lifelong learning experiences for children and adults. The District strives for educational excellence and is proud of the achievements of its students and staff.

Our Mission

Inspire. Innovate. Excel. A Community Commitment

Our Vision

- Inclusive, Respectful, and Caring Environment
- A Culture of High Expectations
- Whole Student Development
- Personalized Learning
- Involved and Invested Community and District

Core Values

Courage	Advocating for what is important and acting with integrity
Excellence	Inspiring, engaging, and challenging ourselves and others
Inclusion	Building caring authentic relationships
Innovation	Using flexibility and creativity to meet challenges and needs
Teamwork	Shared responsibility, accountability and accomplishments

Strategic Direction

- A Culture of Racial Equity
- Career and College Readiness with Core Life Skills
- Effective Teams and Partnerships

The laws of the state of Minnesota give the authority to direct the District's business operations and educational functions to the District's School Board, whose members are elected officials. The School Board has the authority to levy taxes, set fees, and approve budgets and staff positions, along with other business and educational functions, without prior approval from any other governmental unit. The School Board can issue debt, generally with prior district voter approval. The Minnesota Department of Education does have some minor oversight responsibility over the District that is generally related to compliance and approval of certain laws and procedures, but is not substantive in nature.

The financial reporting entity includes all the funds of the District. Component units are legally separate entities for which the District is financially accountable. There are no organizations considered to be component units of the District.

BUDGETARY PROCESS

The District's budget sets forth the financial plan for the forthcoming fiscal year. It is based on the projected financial needs of the District to allocate limited resources in the best possible way to give the best educational opportunities to students. The budget process starts with the development of the plan and timeline with completion and adoption in June. The plan is disseminated to School Board members and administration, and the preparation of the budget is implemented. The administration reviews enrollment projections and determines staffing levels needed for the forthcoming year. A preliminary financial forecast is prepared by the Director of Business Services and staffing levels are determined, keeping the financial projection in focus. The administration then recommends staff changes to the School Board for approval.

The budget process is continuous and involves staff at all levels as they inform administration of their needs and anticipated expenditures. These requests are then reviewed by their budget administrator who determines their appropriateness and, if appropriate, includes them in his/her budget. Each building principal is allocated an amount for supplies, materials, and equipment, based on student enrollment of that building, which he/she must allocate to those accounts under their control. When each administrator has his/her budget assembled, the business department provides oversight and enters it in the finance system.

The Director of Business Services prepares the salary and benefits budget and updates this data to the master budget. The finance/business department staff, along with the Director of Business Services, prepares estimates of other areas for inclusion in the master budget. Staff in the finance/business department reviews the data entered by each budget administrator and provides oversight. Preliminary budgets, makes recommendations and changes, and adopts the final budget in June as required by state law. The District adopts annual budgets for all governmental funds on the same modified accrual basis of accounting as the governmental fund financial statements are presented. The legal level of budgetary control is at the fund level.

The budget is then implemented and administered. Each administrator is responsible for approving purchase requisitions from their buildings or areas of responsibility. They must remain within the budget constraints and monitor their budgets from periodic reports that they receive from the finance/business department. They also have the ability to review their budgets online via the District accounting system. The Director of Business Services has responsibility for the financial integrity of the District. The availability of funds, the proper code classification, the maintenance of the coding structure, and compliance with legal purchasing directives are all continuously monitored by the finance/business departments. All bids and contracts must be authorized and approved by the School Board. The revenue and expenditure budgets are monitored and changed as conditions change. All revisions to the budget are approved by the School Board.

ECONOMIC FACTORS

The District is located in Dakota County, which is one of seven counties that make up the Twin Cities Metropolitan Area. Although recent economic conditions have continued to show signs of improvement for many residents of the District, in the 2019–2020 school year, the percentage of students qualifying for free and reduced lunch increased slightly from 42.4 percent to 43.9 percent.

Although not all of Inver Grove Heights is within the District boundaries, there has been significant residential and commercial growth within the City of Inver Grove Heights' (the City) boundaries. Officials at the City indicated that the City had \$107 million of new construction in 2019, compared to \$81 million in 2018. Total residential construction was 174 dwelling units, including 102 single family units and 72 multi-family units. Residential additions and remodeling improved as homeowners reinvested in their homes. The City issued more than 3,200 building permits for residential additions and remodeling with a valuation of \$66.5 million. There was \$40.5 million of commercial and industrial construction in 2019, compared with \$32.3 million in 2018 and \$11.1 million in 2017.

Included in the new Inver Grove Heights residential construction is an apartment complex located within the District's boundaries, Cahill Place, that will house homeless families in a long-term housing opportunity. Residents will be moving in gradually beginning the fall of 2020 and continuing for several months until the apartment complex has reached capacity. These residents are predicted to add to the District's pupil count, mainly at Hilltop Elementary.

The unemployment rate for Dakota County was 2.9 percent as of December 31, 2019. This compares favorably to both state and national average unemployment rates of 3.2 percent and 3.7 percent, respectively.

Taxable market value in the District increased 5.2 percent for the year from \$3,038,883,950 to \$3,196,977,674.

The District has always been dependent on the state for its revenue authority. However, in the past the general education basic formula allowance, which funds the majority of the District's operations, was composed of aid and levy components. The amount of levy was determined by a state determined tax rate. This rate was adjusted up or down depending on the state's financial position. By doing so, the state could shift revenue responsibility to local taxpayers in times of need or relieve local taxpayers in times of plenty. This is no longer the case as the general education basic formula allowance is now all state aid. Because of this, the District is continuously monitoring the state's financial position.

General education state aid, the single largest source of revenue for the District, is dependent on the number of students served by the District each school year. The 2018 fiscal year enrollment was 3,640. In the 2019 fiscal year, enrollment decreased by 1.6 percent to 3,583. Enrollment decreased by about 1.1 percent to 3,543 our last fiscal year. Each October, the District projects its future enrollment five years out. Future enrollment projections, using the "Cohort Survival Method," indicate that the District's enrollment should remain stable or slightly declining for the next five years. The District has worked with a consultant group to project future enrollment and do a housing study. This allows the District to better predict future needs in staffing and budgeting.

Minnesota school districts have the ability to raise additional revenue through voter-approved excess levy referendums. For fiscal year 2020, the additional funding is capped at \$2,025 per adjusted pupil unit as per state statutes. For fiscal year 2020, the District has authority for \$837.50 per adjusted pupil unit of excess levy authority, which raises a total of approximately \$3.3 million. The District was \$1,262 below the referendum cap established by the Minnesota Legislature during the 2019–2020 school year. The voter approved referendum passed in November 2017 will adjust with inflation. Voters had also approved a capital projects levy that generated \$703,160 of revenue in 2019–2020 and will adjust based on the net tax capacity within the District boundaries.

The District operates five school buildings: one high school (220,728 square feet), one middle school (314,970 square feet), and three elementary buildings (totaling 234,484 square feet). The average age of the five buildings is 59 years. The District added six classrooms onto Pine Bend Elementary during 2019–2020, with construction beginning in the fall of 2019 and projected to be completed the fall of 2020.

Long-term facility maintenance dollars allocated through state and local funding has allowed the District to keep facilities up-to-date on maintenance. The District not only keeps a 10-year Long-Term Maintenance Plan required by the state, but also has an in-depth plan for building maintenance that takes into account all predictable facility maintenance needs over the next 10 years. This keeps unexpected maintenance to a minimum, and ensures that funds are available for repairs with a schedule that puts the highest needs first.

AWARDS AND ACKNOWLEDGEMENTS

The District was awarded the ASBO International Certificate of Excellence in Financial Reporting for the preparation and issuance of a high-quality CAFR for the fiscal year ended June 30, 2019. This was the 15th year in which the District submitted its CAFR and received this award. The Certificate of Excellence, the highest recognition for school district financial operations offered by the ASBO International, is only conferred to school systems that have met or exceeded the standards of the program.

A Certificate of Excellence is only valid for a period of one year. We believe that our current CAFR continues to meet the standards of this program, and we are submitting it to the ASBO International to determine its eligibility for another certificate.

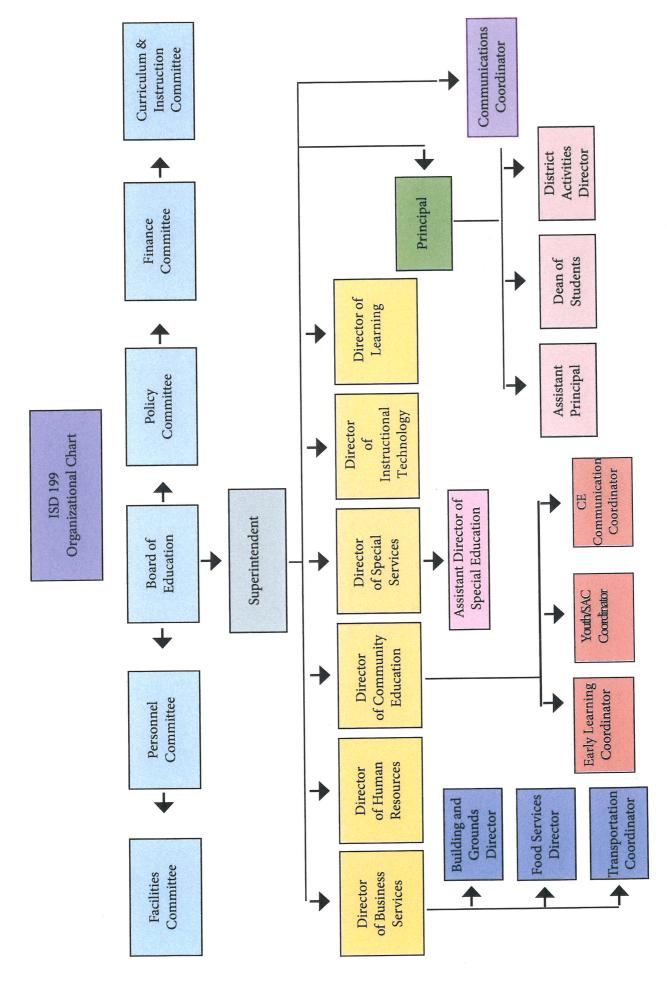

The timely preparation of this report could not have been accomplished without the professional and dedicated hard work of the entire staff of the District's business services team. We wish to express our appreciation to all members of the staff who assisted and contributed to the report preparation.

Our appreciation is also given to the School Board for its support in leading the District in sound and responsible financial management.

Respectfully submitted,

INDEPENDENT AUDITOR'S REPORT

To the School Board and Management of Independent School District No. 199 Inver Grove Heights, Minnesota

REPORT ON THE FINANCIAL STATEMENTS

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Independent School District No. 199 (the District) as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

MANAGEMENT'S RESPONSIBILITY FOR THE FINANCIAL STATEMENTS

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

AUDITOR'S RESPONSIBILITY

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

(continued)

OPINIONS

In our opinion, the financial statements referred to on the previous page present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the District as of June 30, 2020, and the respective changes in financial position, and, where applicable, cash flows thereof, and the budgetary comparison for the General Fund for the year then ended, in accordance with accounting principles generally accepted in the United States of America.

EMPHASIS OF MATTER

As described in Note 1 of the notes to basic financial statements, the District has implemented Governmental Accounting Standards Board (GASB) Statement No. 84, *Fiduciary Activities*, during the year ended June 30, 2020. Our opinion is not modified with respect to this matter.

OTHER MATTERS

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and the required supplementary information (RSI), as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the GASB, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the RSI in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The introductory section, supplemental information, and statistical section, as listed in the table of contents, are presented for purposes of additional analysis and are not required parts of the basic financial statements.

The supplemental information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

(continued)

Prior Year Comparative Information

We have previously audited the District's 2019 financial statements, and we expressed unmodified audit opinions on the respective financial statements of the governmental activities, each major fund, and the aggregate remaining fund information in our report dated November 25, 2019. In our opinion, the partial comparative information presented herein as of and for the year ended June 30, 2019 is consistent, in all material respects, with the audited financial statements from which it has been derived.

OTHER REPORTING REQUIRED BY GOVERNMENT AUDITING STANDARDS

In accordance with *Government Auditing Standards*, we have also issued our report dated December 3, 2020 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements, and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

Malloy, Montague, Karnowski, Radosenich & Co., P.A.

Minneapolis, Minnesota December 3, 2020

Management's Discussion and Analysis Year Ended June 30, 2020

The management of Independent School District No. 199, Inver Grove Heights, Minnesota (the District) has provided readers of the District's financial statements with this narrative overview and analysis of its financial activities for the fiscal year ended June 30, 2020. We encourage readers to consider the information presented here in conjunction with the other components of the District's Comprehensive Annual Financial Report (CAFR), including the letter of transmittal located in the introductory section.

FINANCIAL HIGHLIGHTS

- The District's liabilities and deferred inflows of resources exceeded its assets and deferred outflows of resources at June 30, 2020 by \$15,861,988 (net position deficit). The District's overall financial position, in terms of government-wide total net position, deteriorated by \$2,194,102 during the fiscal year ended June 30, 2020, excluding the change in accounting principle discussed below. The District had \$5,013,172 of net position available at year-end to meet its ongoing obligations but restricted for specific uses. The unrestricted portion of net position was a deficit of \$38,009,221.
- The District recorded a change in accounting principle in the current year for the implementation of the Governmental Accounting Standards Board (GASB) Statement No. 84, *Fiduciary Activities*, which changed how the District reports certain fiduciary activities, including extracurricular student activities previously excluded from the District's reporting entity. The implementation of this standard increased beginning net position in the government-wide financial statements and beginning fund balance in the General Fund by \$37,862.
- The District's governmental funds reported combined fund balances of \$14,333,933 at year-end, a decrease of \$862,334 from the prior year, excluding the change in accounting principle.
- The District's General Fund, its primary operating fund, closed the fiscal year with an unassigned fund balance of \$3,813,365, which represents approximately 8.1 percent of annual General Fund expenditures based on fiscal 2020 expenditure levels.

OVERVIEW OF THE FINANCIAL STATEMENTS

This management's discussion and analysis is intended to serve as an introduction to the District's basic financial statements, which consist of the following three components: the government-wide financial statements, fund financial statements, and the notes to basic financial statements. This report also contains other supplementary information in addition to the basic financial statements.

GOVERNMENT-WIDE FINANCIAL STATEMENTS

The government-wide financial statements (Statement of Net Position and Statement of Activities) report information about the District as a whole using accounting methods similar to those used by private sector companies. The Statement of Net Position includes *all* of the District's assets, deferred outflows of resources, liabilities, and deferred inflows of resources, except for the fiduciary funds. All of the current year's revenues and expenses are accounted for in the Statement of Activities regardless of when cash is received or paid. The two government-wide financial statements report the District's *net position* and how it has changed. Net position—the difference between the District's assets, deferred outflows of resources, liabilities, and deferred inflows of resources—is one way to measure the District's financial health or *position*.

- Over time, increases or decreases in the District's net position are indicators of whether its financial position is improving or deteriorating, respectively.
- To assess the overall health of the District requires consideration of additional nonfinancial factors, such as changes in the District's property tax base and the condition of school buildings and other facilities.

In the government-wide financial statements the District's activities are all shown in one category titled "governmental activities." These activities, including regular and special education instruction, transportation, administration, food services, and community education, are primarily financed with state aids and property taxes.

FUND FINANCIAL STATEMENTS

The fund financial statements provide more detailed information about the District's *funds*, focusing on its most significant or "major" funds, rather than the District as a whole. Funds (Food Service and Community Service Special Revenue) that do not meet the threshold to be classified as major funds are called "nonmajor" funds. Detailed financial information for nonmajor funds is included as supplemental information.

Funds are accounting devices the District uses to keep track of specific sources of funding and spending on particular programs. Minnesota schools must establish funds within the guidelines of the state's Uniform Financial Accounting and Reporting Standards.

The District maintains the following types of funds:

Governmental Funds – The District's basic services are included in governmental funds, which generally focus on: 1) how *cash and other financial assets* that can readily be converted to cash flow in and out, and 2) the balances left at year-end that are available for spending. Consequently, the governmental fund financial statements provide a detailed *short-term* view that helps to determine whether there are more or less financial resources that can be spent in the near future to finance the District's programs. Because this information does not encompass the additional long-term focus of the government-wide financial statements, we provide additional information (reconciliation schedules) immediately following the governmental fund financial statements that explain the relationship (or differences) between these two types of financial statement presentations.

Proprietary Funds – Proprietary fund statements offer *short-term* and *long-term* financial information about the activities the District operates like businesses. Proprietary fund financial statements provide the same type of information as the government-wide financial statements, only in more detail. The District maintains one type of proprietary fund, internal service funds, which are used to accumulate and allocate costs internally among the District's various functions. The District's two internal service funds account for its post-employment employee benefit liabilities. These activities have been included within governmental activities in the government-wide financial statements.

Fiduciary Funds – The District is the trustee, or fiduciary, for assets that belong to other organizations. The District is responsible for ensuring that the assets reported in these funds are used only for its intended purposes and by those to whom the assets belong. All of the District's fiduciary activities are reported in a separate Statement of Fiduciary Net Position and a Statement of Changes in Fiduciary Net Position. We exclude these activities from the government-wide financial statements because the District cannot use these assets to finance its operations.

FINANCIAL ANALYSIS OF THE DISTRICT AS A WHOLE

Table 1 is a summarized view of the District's Statement of Net Position:

Table 1Summary of Net Positionas of June 30, 2020 and 2019								
	2020	2019						
Assets Current and other assets Capital assets, net of depreciation	\$ 45,235,419 67,610,087	\$ 45,886,408 65,931,477						
Total assets	\$ 112,845,506	\$ 111,817,885						
Deferred outflows of resources Pension plan deferments OPEB plan deferments Deferred charges on refunding	\$ 22,364,362 638,790 831,885	\$ 32,923,170 569,448 938,651						
Total deferred outflows of resources	\$ 23,835,037	\$ 34,431,269						
Liabilities Current and other liabilities Long-term liabilities, including due within one year	\$	\$ 6,227,377 96,659,985						
Total liabilities	\$ 104,842,908	\$ 102,887,362						
Deferred inflows of resources Property taxes levied for subsequent year Pension plan deferments OPEB plan deferments	\$ 12,421,849 34,543,937 733,837	\$ 12,982,755 43,259,218 825,567						
Total deferred inflows of resources	\$ 47,699,623	\$ 57,067,540						
Net position Net investment in capital assets Restricted Unrestricted	\$ 17,134,061 5,013,172 (38,009,221)	\$ 15,699,953 4,898,796 (34,304,497)						
Total net position	\$ (15,861,988)	\$ (13,705,748)						

The District's financial position is the product of many factors. For example, the determination of the District's net investment in capital assets involves many assumptions and estimates, such as depreciable lives and capitalization policies. Net position also includes long-term liabilities for severance, pension, and other post-employment benefits (OPEB), which are not reported in the governmental funds.

Total net position decreased by \$2,194,102 in the current year, excluding the change in accounting principle previously discussed. Changes in the District's share of the state-wide Public Employees Retirement Association (PERA) and Teachers Retirement Association (TRA) pension plans contributed to the differences in deferred outflows of resources, long-term liabilities, deferred inflows of resources, and unrestricted net position.

Table 2Change in Net Positionfor the Years Ended June 30, 2020 and 2019

Net position – ending	\$ (15,861,988)	\$ (13,705,748)					

Table 2 presents a condensed version of the Change in Net Position of the District:

This table is presented on an accrual basis of accounting, and it includes all of the governmental activities of the District. This table includes depreciation expense, but excludes capital asset purchase costs, debt proceeds, and the repayment of debt principal.

Governmental activities revenues increased \$1,320,313 (2.4 percent) from the previous year, mainly due to increases in special education aid and pension pass-through revenue.

Governmental activities expenses were \$14,271,201 (32.9 percent) higher than last year, mainly due to the change in expenses related to the two state-wide pension plans mentioned earlier, which impact the various functional areas based on relative salary and benefit levels.

Figures A and B show further analysis of these revenue sources and expense functions:

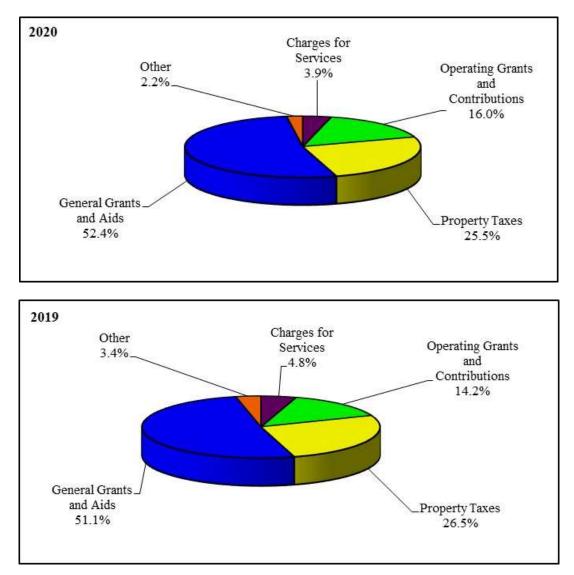

Figure A – Sources of Revenue for Fiscal Years 2020 and 2019

The largest share of the District's revenue is received from the state, including the general education aid formula and most of the operating grants. This significant reliance on the state for funding has placed tremendous pressure on local school districts as a result of limited funding increases in recent years.

Property taxes are generally the next largest source of funding. The level of funding property tax sources provide is not only dependent on taxpayers of the District by way of operating and building referenda, but also by decisions made by the Legislature in the mix of state aid and local effort in a variety of funding formulas.

The decrease in charges for services from the prior year was directly related to the COVID-19 pandemic, which caused the cancellation of numerous activities beginning in March through the end of the fiscal year.

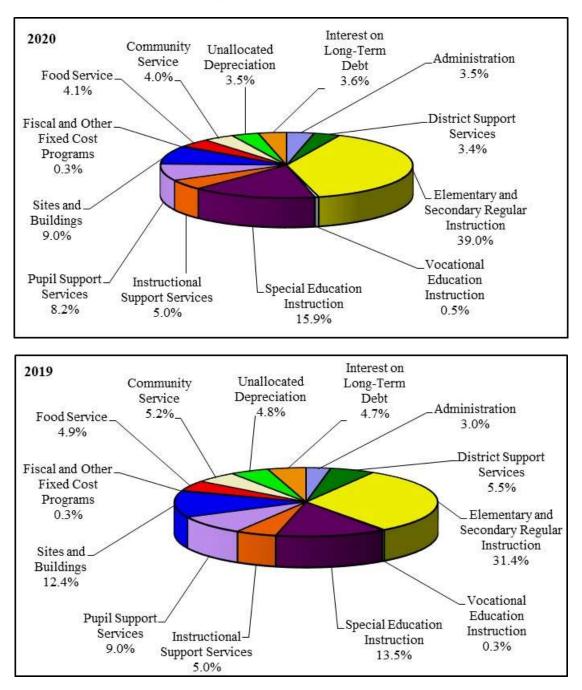

Figure B – Expenses for Fiscal Years 2020 and 2019

The District's expenses are predominately related to educating students. Programs (or functions), such as elementary and secondary regular instruction, vocational education instruction, special education instruction, and instructional support services, are directly related to classroom instruction, while the rest of the programs support instruction and other necessary costs to operate the District.

The significant year-to-year change in the percentage of expenses incurred in several program areas shown above was attributable to the change in expenses related to the two state-wide pension plans, which caused greater fluctuations in program areas with a higher proportion of salaries.

FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

The financial performance of the District as a whole is also reflected in its governmental funds. Table 3 shows the change in total fund balances of each of the District's governmental funds:

Table 3Governmental Fund Balancesas of June 30, 2020 and 2019							
	2	2020		2019		Change	Percent Change
Major funds							
General	\$ 11	,862,278	\$	12,770,391	\$	(908,113)	(7.1%
Capital Projects – Building Construction		243,273		(268,667)		511,940	190.5%
Debt Service	1	,295,472		1,280,729		14,743	1.2%
Nonmajor funds							
Food Service Special Revenue		745,354		1,030,729		(285,375)	(27.7%
Community Service Special Revenue		187,556		345,223		(157,667)	(45.7%
Total governmental funds	\$ 14	,333,933	\$	15,158,405	\$	(824,472)	(5.4%

The focus of the District's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the District's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for discretionary use, as they represent the portion of fund balance which has not yet been limited to use for a particular purpose by either an external party, the District itself, or a group or individual that has been delegated authority to assign resources for use for particular purposes by the District's School Board.

At June 30, 2020, the District's governmental funds reported combined fund balances of 14,333,933, a decrease of 824,472 in comparison with the prior year, including the change in accounting principle discussed previously. Unassigned fund balance at year-end was 3,813,365, which is available for spending at the District's discretion. The remainder of the fund balance is either: 1) nonspendable (not in spendable form) – 582,387, 2) restricted for particular purposes – 6,084,177, or 3) assigned for particular purposes – 33,854,004.

The District created a new Capital Projects – Building Construction Fund in fiscal 2019 to account for costs related to capital projects that were financed with debt issued in fiscal 2020.

ANALYSIS OF THE GENERAL FUND

		Table 4 General Fund Budget		
	Original Budget	Final Budget	Change	Percent Change
Revenue and other financing sources	\$ 47,209,056	\$ 47,571,319	\$ 362,263	0.8%
Expenditures	\$ 47,107,165	\$ 47,600,658	\$ 493,493	1.0%

Table 4 summarizes the amendments to the General Fund budget:

The District is required to adopt an operating budget prior to the beginning of its fiscal year, referred to as the original budget. It is the District's practice to amend the General Fund budget for known significant changes in circumstances. The District amended the budget during the year to adjust for updated enrollment projections, updated special education estimates, known staffing changes, and updated federal funding allocations and budgets.

Table 5 summarizes the operating results of the General Fund:

Table 5 General Fund Operating Results									
		Over (Under) Prior Year							
	2020 Actual		Final Budget Amount Percent			Amount	Percent		
Revenue	\$ 45,821,725	\$	(899,594)	(1.9%)	\$	(52,256)	(0.1%)		
Expenditures	46,793,209	\$	\$ (807,449) (1.7%)		\$	662,757	1.4%		
Other financing sources (uses)	25,509	\$	(824,491)	(97.0%)	\$	(584,516)	(95.8%)		
Net change in fund balances	\$ (945,975)								

The fund balance of the General Fund decreased \$945,975 in the current year, compared to a decrease of \$29,339 approved in the final budget.

General Fund revenues decreased \$52,256 from the prior year, as increases in state and federal funding were offset by a decrease in the General Fund tax levy and reduced charges for services, largely due to program cancelations as a result of the COVID-19 pandemic. Revenues were \$899,594 under the final budget for fiscal year 2020, mainly due to the District serving fewer students than expected.

General Fund expenditures increased \$662,757, primarily due to staffing additions and contractual increases in salaries and benefits. Expenditures were under budget by \$807,449, with the largest area of savings in the District support services program area, primarily due to the timing of software purchases and conservative spending, due to uncertainty during the COVID-19 pandemic.

General Fund other financing sources and uses were \$584,516 less than the prior year due to a reduction in capital lease financing used for technology purchases. Other financing sources and uses were \$824,491 under budget to the postponement of an anticipated sale of land.

COMMENTS ON SIGNIFICANT ACTIVITIES IN OTHER FUNDS

Capital Projects – Building Construction Fund

The Capital Projects – Building Construction Fund was created during fiscal 2019 to account for future planned capital projects, including an addition to Pine Bend Elementary. The District issued general obligation certificates of participation with a par value of \$3,775,000 in fiscal 2020 for this purpose, ending the year with a fund balance of \$243,273 restricted for the completion of these projects.

Debt Service Fund

The Debt Service Fund is used to record principal and interest expenditures for the District's outstanding bonded indebtedness and the revenue sources used to finance them, whether for building construction, OPEB, or for initial or refunding bonds. The District made \$5,073,223 of scheduled debt service principal and interest payments on its outstanding bond issues in the current year, principally financed through annual debt service property tax levies. The District also issued general obligation refunding bonds in fiscal 2020 with a par value of \$2,655,000 that were used to call an outstanding issue, thereby reducing future interest costs to the District. The year-end fund balance of \$1,295,472 is restricted for future debt service.

Analysis of Other Governmental Funds

The District's final budget for the Food Service Special Revenue Fund projected a fund balance decrease of \$260,089, compared to an actual decrease of \$285,375. Revenues were over budget by \$428,817, primarily due to additional federal funding for an expansion of meals served through the child nutrition program during the COVID-19 pandemic and higher commodity awards than projected. Expenditures were over appropriations by \$454,103, mainly in purchased services, and supplies (including food costs) and materials.

The District's final budget for the Community Service Special Revenue Fund projected a fund balance decrease of \$403,943, compared to an actual decrease of \$157,667. Revenues were over budget by \$113,819, mainly due to \$90,204 from federal sources that was not budgeted for. Expenditures were under budget by \$40,779, primarily in purchased services. The District also transferred \$91,678 from the General Fund to help finance community service program costs, as tuition and fees dropped \$352,650 from the previous year, due to reduced participation caused by the COVID-19 pandemic.

Internal Service Fund

Internal service funds are used to account for the financing of goods and services provided by one department or agency of a government to other departments or agencies on a cost-reimbursement basis. The District maintains two internal service funds. One fund is used to account for the payment and financing of its severance and pension benefit liabilities, and the other is used to account for the payment and financing of its OPEB liabilities, including the administration of assets held in a revocable OPEB trust to finance these liabilities. Total net position decreased \$273,399 in fiscal 2020, to \$2,727,767.

CAPITAL ASSETS AND LONG-TERM LIABILITIES

Capital Assets

Table 6 shows the District's capital assets, together with changes from the previous year. The table also shows the total depreciation expense for fiscal years ended June 30, 2020 and 2019:

	C	Table 6 apital Assets		
		2020	 2019	 Change
Land	\$	659,721	\$ 651,721	\$ 8,000
Construction in progress		3,587,723	268,667	3,319,056
Buildings and improvements		92,071,374	92,063,754	7,620
Furniture and equipment		4,285,471	3,807,651	477,820
Less accumulated depreciation		(32,994,202)	(30,860,316)	 (2,133,886)
Total	\$	67,610,087	\$ 65,931,477	\$ 1,678,610
Depreciation expense	\$	2,171,886	\$ 2,214,730	\$ (42,844)

The District's capital asset purchases increased in fiscal 2020 due to significant construction in progress on the Pine Bend building addition project. The project is expected to be completed in fiscal 2021.

Long-Term Liabilities

Table 7 presents the components of the District's long-term liabilities and the change from the prior year:

Table 7 Outstanding Long-Term Liabilities										
		2020		2019	Change					
G.O. bonds and certificates	\$	54,990,000	\$	54,725,000	\$	265,000				
Premiums		2,507,750		2,369,229		138,521				
Discounts		_		(22,647)		22,647				
Special assessments payable		6,250		18,750		(12,500)				
Capital leases payable		1,958,901		2,212,823		(253,922)				
Severance payable		1,173,781		1,046,605		127,176				
Total OPEB liability		7,060,170		6,650,849		409,321				
Net/total pension liabilities		30,096,662		29,659,376		437,286				
Total	\$	97,793,514	\$	96,659,985	\$	1,133,529				

The increases in general obligation bonds and COP payable is due to issuing certificates of participation to fund the Pine Bend building addition.

The increase in the pension liability for the District is due to the change in the District's proportionate share of the state-wide PERA and TRA pension plan liabilities. The increase in the District's proportionate share of the state-wide pension liability was caused by an increase in staffing in fiscal 2020 resulting in higher contributions to TRA and PERA.

The state limits the amount of general obligation debt the District can issue to 15 percent of the market value of all taxable property within the District's corporate limits (see Table 8).

Table Limitations	-
District's market value Limit rate	\$ 3,294,618,584 15.0%
Legal debt limit	\$ 494,192,788

Additional details of the District's capital assets and long-term debt activity can be found in the notes to basic financial statements.

FACTORS BEARING ON THE DISTRICT'S FUTURE

With the exception of the voter-approved operating referendum, the District is dependent on the state of Minnesota for a majority of its revenue authority. The general education program is the method by which school districts receive the majority of their financial support. This source of funding is primarily state aid and, as such, school districts rely heavily on the state of Minnesota for educational resources. The Legislature has added \$129, or 2 percent, per pupil to the formula for fiscal year 2021.

The COVID-19 pandemic has impacted how the District provides instruction. The District completed the 2019–2020 school year with distance learning. Increased expenditures for staffing needs, personal protective equipment, sanitation supplies, and technology are expected in the upcoming fiscal year.

The amount of funding a district receives is also dependent on the number of students it serves, meaning attracting and retaining students is critical to the District's financial well-being. The COVID-19 pandemic may impact the District's future enrollment. Students choosing to enroll in other online schools, utilize private school options, or kindergarten families choosing to wait a year, could impact District revenues.

The District will strive to maintain its longstanding commitment to academic excellence and educational opportunity for students within a framework of financial fiduciary responsibility.

CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

This CAFR is designed to provide our citizens, taxpayers, customers, investors, and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the money it receives. If you have questions about this CAFR or need additional financial information, contact the Business Office, Independent School District No. 199, 2990 – 80th Street East, Inver Grove Heights, Minnesota 55076.

Reconciliation of the Balance Sheet to the Statement of Net Position Governmental Funds as of June 30, 2020 (With Partial Comparative Information as of June 30, 2019)

	2020	2019
Total fund balances – governmental funds	\$ 14,333,933	\$ 15,158,405
Amounts reported for governmental activities in the Statement of Net Position are different because:		
Capital assets are included in net position, but are excluded from fund balances because they do not represent financial resources.		
Cost of capital assets	100,604,289	96,791,793
Accumulated depreciation	(32,994,202)	(30,860,316)
Long-term liabilities are included in net position, but are excluded from fund balances until due and payable.		
G.O. bonds and certificates	(54,990,000)	(54,725,000)
Special assessments payable	(6,250)	(18,750)
Capital leases payable	(1,958,901)	(2,212,823)
Unamortized (premiums) discounts	(2,507,750)	(2,346,582)
Net pension liability – PERA and TRA pension plans	(28,446,194)	(27,771,294)
Internal service funds are used by management to charge the costs of certain activities to individual funds. The assets and liabilities of the internal service funds are included in the governmental activities in the Statement of Net		
Position.	2,727,767	3,001,166
Accrued interest payable is included in net position, but is excluded from fund balances until due and payable.	(940,625)	(916,752)
The recognition of certain revenues and expenses/expenditures differ between the full accrual governmental activities financial statements and the modified accrual governmental fund financial statements.		
Deferred outflows of resources – PERA and TRA pension plans	21,932,611	32,427,218
Deferred outflows of resources – deferred charges on refunding	831,885	938,651
Deferred inflows of resources – PERA and TRA pension plans	(34,542,024)	(43,250,137)
Deferred inflows of resources – delinquent property taxes	93,473	78,673
Total net position – governmental activities	\$ (15,861,988)	\$ (13,705,748)

Reconciliation of the Statement of Revenue, Expenditures, and Changes in Fund Balances to the Statement of Activities Governmental Funds Year Ended June 30, 2020 (With Partial Comparative Information for the Year Ended June 30, 2019)

		2020		2019
Total net change in fund balances – governmental funds	\$	(862,334)	\$	(378,975)
Amounts reported for governmental activities in the Statement of Activities are different because:				
Capital outlays are recorded in net position and the cost is allocated over their estimated useful lives as depreciation expense. However, fund balances are reduced for the full cost of capital outlays at the time of purchase. Capital outlays Depreciation expense		3,850,496 (2,171,886)		512,208 (2,214,730)
The amount of debt issued is reported as a source of financing in the governmental funds. Debt obligations are not revenues in the Statement of Activities, but rather constitute long-term liabilities.				
G.O. bonds and certificates		(6,430,000)		_
Capital leases		(117,187)		(608,775)
Internal service funds are used by management to charge the costs of certain activities to individual funds. The change in net position of the internal service funds is included in the governmental activities in the Statement of Activities.		(273,399)		108,923
Repayment of long-term debt does not affect the change in net position. However, it reduces fund balances.				
G.O. bonds and certificates		6,165,000		2,840,000
Special assessments payable		12,500		12,500
Capital leases payable		371,109		344,061
Net pension liability – PERA and TRA pension plans		(674,900)	4	48,858,881
Interest on long-term debt is included in the change in net position as it accrues, regardless of when payment is due. However, it is included in the change in fund balances when due.		(23,873)		52,509
Debt issuance premiums and discounts are included in the change in net position as they are amortized over the life of the debt. However, they are included in the change in fund balances upon issuance as other financing sources and uses.		(161,168)		330,817
The recognition of certain revenues and expenses/expenditures differ between the full accrual governmental activities financial statements and the modified accrual governmental fund financial statements.				
Deferred outflows of resources – PERA and TRA pension plans	(10,494,607)	(10,877,149)
Deferred outflows of resources – deferred charges on refunding		(106,766)		(106,766)
Deferred inflows of resources - PERA and TRA pension plans		8,708,113	(2	28,117,151)
Deferred inflows of resources – delinquent property taxes		14,800		433
Change in net position – governmental activities	\$	(2,194,102)	\$	10,756,786

Notes to Basic Financial Statements June 30, 2020

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Organization

Independent School District No. 199, Inver Grove Heights, Minnesota (the District) was formed and operates pursuant to applicable Minnesota laws and statutes. It is governed by a seven-member School Board elected by the voters of the District to serve four-year terms. The District's financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

B. Reporting Entity

The accompanying financial statements include all funds, departments, agencies, boards, commissions, and other organizations that comprise the District, along with any component units.

Component units are legally separate entities for which the District (primary government) is financially accountable, or for which the exclusion of the component unit would render the financial statements of the primary government misleading. The criteria used to determine if the primary government is financially accountable for a component unit includes whether or not the primary government appoints the voting majority of the potential component unit's governing body, is able to impose its will on the potential component unit, is in a relationship of financial benefit or burden with the potential component unit, or is fiscally depended upon by the potential component unit. Based on these criteria, there are no organizations considered to be component units of the District.

C. Government-Wide Financial Statement Presentation

The government-wide financial statements (Statement of Net Position and Statement of Activities) display information about the reporting government as a whole. These statements include all the financial activities of the District, except for the fiduciary funds. Generally, the effect of material interfund activity has been removed from the government-wide financial statements.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other internally directed revenues are reported instead as general revenues.

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are generally recognized as revenues in the fiscal year for which they are levied, except for amounts advance recognized in accordance with a statutory "tax shift" described later in these notes. Grants and similar items are recognized when all eligibility requirements imposed by the provider have been met.

For capital assets that can be specifically identified with, or allocated to, functional areas, depreciation expense is included as a direct expense in the functional areas that utilize the related capital assets. For capital assets that essentially serve all functional areas, depreciation expense is reported as "depreciation not allocated directly to programs." Interest on long-term debt is considered an indirect expense and is reported separately on the Statement of Activities.

D. Fund Financial Statement Presentation

Separate fund financial statements are provided for governmental, proprietary, and fiduciary funds. Major individual governmental funds are reported as separate columns in the fund financial statements. Aggregated information for the remaining nonmajor governmental funds is reported in a single column in the fund financial statements.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this basis of accounting, transactions are recorded in the following manner:

1. **Revenue Recognition** – Revenue is recognized when it becomes measurable and available. "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. For this purpose, the District generally considers revenues to be available if they are collected within 60 days after year-end. Grants and similar items are recognized when all eligibility requirements imposed by the provider have been met. State revenue is recognized in the year to which it applies according to funding formulas established by Minnesota Statutes. Proceeds of long-term debt and capital leases are reported as other financing sources.

Property taxes; federal, state, and local grants and aids; and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the government.

2. Recording of Expenditures – Expenditures are generally recorded when a liability is incurred, except for principal and interest on long-term debt and other long-term liabilities, which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as capital outlay expenditures in governmental funds. In the General Fund, capital expenditures are included within the applicable functional areas.

Internal service funds are presented in the proprietary fund financial statements. Because the principal users of the internal services are the District's governmental activities, the financial activity of the internal service funds are consolidated into the governmental activities in the government-wide financial statements. The cost of these services is reported in the appropriate functional activity.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenue of the District's internal service funds is charges to customers (other district funds) for services. Operating expenses for the internal service funds include the cost of services. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

Fiduciary funds are presented in the fiduciary fund financial statements by type: pension (or other benefit) trust and custodial. Since, by definition, fiduciary fund assets are being held for the benefit of a third party and cannot be used for activities or obligations of the District, these funds are excluded from the government-wide financial statements.

Proprietary and fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting as described earlier in these notes.

Description of Funds

The existence of the various funds has been established by the Minnesota Department of Education (MDE). Each fund is accounted for as an independent entity. Descriptions of the funds in this report are as follows:

Major Governmental Funds

General Fund – The General Fund is used to account for all financial resources except those required to be accounted for in another fund.

Capital Projects – Building Construction Fund – The Capital Projects – Building Construction Fund is used to account for financial resources used for the acquisition or construction of major capital facilities, generally authorized by bond issue or capital levies.

Debt Service Fund – The Debt Service Fund is used to account for the accumulation of resources for, and payment of, debt principal, interest, and related costs.

Nonmajor Governmental Funds

Food Service Special Revenue Fund – The Food Service Special Revenue Fund is primarily used to account for the District's child nutrition program.

Community Service Special Revenue Fund – The Community Service Special Revenue Fund is used to account for services provided to residents in the areas of recreation, civic activities, nonpublic pupils, adult or early childhood programs, or other similar services.

Proprietary Funds

Severance and Pension Benefits Internal Service Fund – The Severance and Pension Benefits Internal Service Fund is used to account for the payment and financing of its severance and pension benefit liabilities.

Other Post-Employment Benefits (OPEB) Internal Service Fund – The Other Post-Employment Benefits (OPEB) Internal Service Fund is used to account for the payment and financing of its OPEB liabilities, including the administration of assets held in a revocable trust to finance these liabilities.

Fiduciary Funds

Custodial Fund – The Custodial Fund is used as a flow through mechanism in which the District receives funds and distributes these funds to an organization, with no financial benefit to the District.

Employee Benefits Trust Fund – The Employee Benefits Trust Fund was being used to administer resources held by the District for employees participating in the District's flexible benefit plan (Internal Revenue Code (IRC) § 125 Cafeteria Plan). This fund was closed during the year, due to the change in accounting principle described later in these notes.

E. Budgetary Information

The School Board adopts annual budgets for all governmental funds on the same basis of accounting as the fund financial statements. Legal budgetary control is at the fund level. All appropriations lapse at year-end. Actual expenditures for the year ended June 30, 2020 exceeded budgeted appropriations by \$454,103 and \$48,759 in the Food Service Special Revenue Fund and Debt Service Fund, respectively. The additional expenditures were approved by the School Board as required by Minnesota Statutes, and were financed by revenues or other financing sources in excess of budget, along with available fund balances.

F. Cash and Temporary Investments

Cash and temporary investments include balances from all funds that are combined and invested to the extent available in various securities as authorized by state law. Earnings from the pooled investments are allocated to the respective funds on the basis of applicable cash balance participation by each fund. Earnings from the investments of all trust funds are allocated directly to those funds.

Certain cash and investments are held in segregated accounts established for specific purposes. In the OPEB Internal Service Fund, restricted assets are reported for assets held in a revocable trust established to finance the District's liability for post-employment insurance benefits. These cash and investment balances are reported as restricted assets in the government-wide financial statements. Earnings from these investments are allocated directly to the applicable funds.

For purposes of the Statement of Cash Flows, the District considers all highly liquid debt instruments with an original maturity from the time of purchase by the District of three months or less to be cash equivalents. The proprietary fund's equity in the government-wide cash and investment management pool is considered to be cash equivalent.

Investments are generally stated at fair value, except for certain external investment pools, which are stated at amortized cost. Short-term, highly liquid debt instruments (including commercial paper, bankers' acceptance, and U.S. Treasury and agency obligations) purchased with a remaining maturity of one year or less may also be reported at amortized cost. Investment income is accrued at the Balance Sheet date.

The District categorizes its fair value measurements within the fair value hierarchy established by accounting principles generally accepted in the United States of America. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; and Level 3 inputs are significant unobservable inputs. Debt securities classified in Level 2 of the fair value hierarchy are valued using a matrix pricing technique. Matrix pricing is used to value securities based on the securities' relationship to benchmark quoted prices. See Note 2 for the District's recurring fair value measurements at year-end.

G. Receivables

When necessary, the District utilizes an allowance for uncollectible accounts to value its receivables. However, the District considers all of its current receivables to be collectible. The only receivables not expected to be fully collected within one year are property taxes receivable.

At June 30, 2020, the District reported the following receivables due from other governmental units:

Due from the MDE	\$ 4,282,626
Due from other Minnesota school districts	326,875
Due from Dakota County and other	 54,555
Total due from other governmental units	\$ 4,664,056

H. Interfund Balances and Transfers

The current portions of interfund balances representative of lending/borrowing arrangements outstanding at the end of the fiscal year are reported as due to/due from other funds. At June 30, 2020, the General Fund reported a receivable of \$504,737 due from the OPEB Internal Service Fund to reimburse OPEB costs initially paid by the General Fund.

The District transferred \$91,678 from the General Fund to the Community Service Special Revenue Fund during the year to support community service activities negatively impacted by the COVID-19 pandemic.

Interfund balances and transfers are reported in the fund financial statements, but are eliminated as necessary in the government-wide financial statements.

I. Inventories

Inventories are recorded using the consumption method of accounting and consist of surplus commodities received from the federal government. Surplus commodities are stated at standardized costs, as determined by the U.S. Department of Agriculture.

J. Prepaid Items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items. Prepaid items are recorded as expense/expenditures at the time of consumption.

K. Property Taxes

The majority of district revenue is determined annually by statutory funding formulas. The total revenue allowed by these formulas is then allocated between property taxes and state aids by the Legislature based on education funding priorities.

Generally, property taxes are recognized as revenue by the District in the fiscal year that begins midway through the calendar year in which the tax levy is collectible. To help balance the state budget, the Minnesota Legislature utilizes a tool referred to as the "tax shift," which periodically changes the District's recognition of property tax revenue. The tax shift advance recognizes cash collected for the subsequent year's levy as current year revenue, allowing the state to reduce the amount of aid paid to the District. Currently, the mandated tax shift recognizes \$1,117,837 of the property tax levy collectible in 2020 as revenue to the District in fiscal year 2019–2020. The remaining portion of the taxes collectible in 2020 is recorded as a deferred inflow of resources (property taxes levied for subsequent year).

Property tax levies are certified to the County Auditor in December of each year for collection from taxpayers in May and October of the following calendar year. In Minnesota, counties act as collection agents for all property taxes. The county spreads all levies over taxable property. Such taxes become a lien on property on the following January 1. The county generally remits taxes to the District at periodic intervals as they are collected.

Taxes that remain unpaid are classified as delinquent taxes receivable. Revenue from these delinquent property taxes that is not collected within 60 days of year-end is reported as a deferred inflow of resources (unavailable revenue) in the fund-based financial statements because it is not known to be available to finance the operations of the District in the current year. No allowance for uncollectible taxes is considered necessary.

L. Capital Assets

Capital assets are capitalized at historical cost, or estimated historical cost if purchased or constructed. Donated capital assets are recorded at their estimated acquisition value at the date of donation. The District defines capital assets as those with an initial, individual cost of \$5,000 or more, which benefit more than one fiscal year. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized.

Capital assets are recorded in the government-wide financial statements, but are not reported in the fund financial statements. Capital assets are depreciated using the straight-line method over their estimated useful lives. Since surplus assets are generally sold for an immaterial amount or scrapped when declared as no longer fit or needed for public school purposes by the District, no salvage value is taken into consideration for depreciation purposes. Useful lives vary from 20 to 50 years for buildings and improvements, and 5 to 20 years for furniture and equipment. Land and construction in progress are not depreciated.

The District does not possess any material amounts of infrastructure capital assets, such as sidewalks or parking lots. Such items are considered to be part of the cost of buildings or other improvable property.

M. Long-Term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities. Bond premiums and discounts are deferred and amortized over the life of the bonds using the straight-line method.

In the fund financial statements, governmental fund types recognize bond premiums and discounts during the current period. The face amount of debt issued is reported as other financing sources. Premiums or discounts are reported as other financing sources or uses, respectively.

N. Compensated Absences

Eligible employees accrue vacation and sick leave at varying rates as specified by contract, portions of which may be carried over to future years. Compensated absences are accrued in the governmental fund financial statements only to the extent they have been used or otherwise matured prior to year-end. Unused vacation accrued at year-end is insignificant, and no vacation liability has been recorded in the government-wide financial statements beyond the amounts that were used or matured by year-end. Unused sick leave enters into the calculation of severance benefits for some employees upon termination.

O. Severance Benefits

Under the terms of collectively bargained employment contracts, certain district employee groups, including teachers, may become eligible to receive lump sum severance benefits. Eligibility is based on years of service and/or minimum age requirements.

Severance benefits are calculated by converting a portion of unused, accrued sick leave times a pay rate specified in the employee's collectively bargained contract. Severance benefits based on convertible sick leave are recorded as a liability in the Severance and Pension Benefits Internal Service Fund as they are earned and it becomes probable they will vest at some point in the future.

Employees may also elect to receive district matching contributions to their 403(b) individual retirement accounts. An individual's future severance benefits will be reduced by any 403(b) matching payments received. In accordance with Minnesota Statutes, no employee can receive severance or retirement incentive benefits that exceed one year's salary.

P. State-Wide Pension Plans

For purposes of measuring the net pension liability, deferred outflows/inflows of resources, and pension expense, information about the fiduciary net position of the Public Employees Retirement Association (PERA) and the Teachers Retirement Association (TRA) and additions to/deductions from the PERA's and the TRA's fiduciary net positions have been determined on the same basis as they are reported by the PERA and the TRA. For this purpose, plan contributions are recognized as of employer payroll paid dates and benefit payments and refunds are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

The TRA has a special funding situation created by direct aid contributions made by the state of Minnesota, City of Minneapolis, and Special School District No. 1, Minneapolis Public Schools. The direct aid is a result of the merger of the Minneapolis Teachers Retirement Fund Association into the TRA in 2006. A second direct aid source is from the state of Minnesota for the merger of the Duluth Teachers Retirement Fund Association in 2015.

The PERA has a special funding situation created by a direct aid contribution made by the state of Minnesota. The direct aid is a result of the merger of the Minneapolis Employees Retirement Fund into the PERA on January 1, 2015.

Q. Deferred Outflows/Inflows of Resources

In addition to assets and liabilities, statements of financial position or balance sheets will sometimes report separate sections for deferred outflows or inflows of resources. These separate financial statement elements represent a consumption or acquisition of net position that applies to a future period and so will not be recognized as an outflow of resources (expense/expenditure) or an inflow of financial resources (revenue) until then.

The District reports deferred outflows and inflows of resources related to pensions and OPEB in the government-wide Statement of Net Position. These deferred outflows and inflows result from differences between expected and actual experience, changes of assumptions, changes in proportion, differences between projected and actual earnings on pension and OPEB plan investments, and contributions to the plan subsequent to the measurement date and before the end of the reporting period. These amounts are deferred and amortized as required under pension and OPEB standards.

The District reports a deferred outflow of resources related deferred charges on refunding in the government-wide Statement of Net Position. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.

Property taxes levied for subsequent years, which represents property taxes received or reported as a receivable before the period for which the taxes are levied, are reported as a deferred inflow of resources in both the government-wide Statement of Net Position and the governmental funds Balance Sheet. Property taxes levied for subsequent years are deferred and recognized as an inflow of resources in the government-wide financial statements in the year for which they are levied, and in the governmental fund financial statements during the year for which they are levied, if available.

Unavailable revenue from property taxes arises under a modified accrual basis of accounting and is reported only in the governmental funds Balance Sheet. Delinquent property taxes not collected within 60 days of year-end are deferred and recognized as an inflow of resources in the governmental funds in the period the amounts become available.

R. Net Position

In the government-wide and proprietary fund financial statements, net position represents the difference between assets, deferred outflows of resources, liabilities, and deferred inflows of resources. Net position is displayed in three components:

- Net Investment in Capital Assets Consists of capital assets, net of accumulated depreciation, reduced by any outstanding debt attributable to acquire capital assets.
- **Restricted** Consists of net position restricted when there are limitations imposed on their use through external restrictions imposed by creditors, grantors, or laws or regulations of other governments.
- Unrestricted All other net position that does not meet the definition of "restricted" or "net investment in capital assets."

The District applies restricted resources first when an expense is incurred for which both restricted and unrestricted resources are available.

S. Fund Balance Classifications

In the fund financial statements, governmental funds report fund balance in classifications that disclose constraints for which amounts in those funds can be spent. These classifications are as follows:

- Nonspendable Consists of amounts that are not in spendable form, such as prepaid items, inventory, and other long-term assets.
- **Restricted** Consists of amounts related to externally imposed constraints established by creditors, grantors, or contributors; or constraints imposed by state statutory provisions.
- **Committed** Consists of internally imposed constraints that are established by resolution of the School Board. Those committed amounts cannot be used for any other purpose unless the School Board removes or changes the specified use by taking the same type of action it employed to previously commit those amounts.
- Assigned Consists of internally imposed constraints. These constraints consist of amounts intended to be used by the District for specific purposes but do not meet the criteria to be classified as restricted or committed. In governmental funds, assigned amounts represent intended uses established by the governing body itself or by an official to which the governing body delegates the authority. Pursuant to School Board resolution, the District's director of business services is authorized to establish assignments of fund balance.
- **Unassigned** The residual classification for the General Fund, which also reflects negative residual amounts in other funds.

When both restricted and unrestricted resources are available for use, it is the District's policy to first use restricted resources, then unrestricted resources as they are needed. When committed, assigned, or unassigned resources are available for use, it is the District's policy to use resources in the following order: 1) committed, 2) assigned, and 3) unassigned.

T. Risk Management

The District is exposed to various risks of loss related to torts: theft of, damage to, and destruction of assets; errors and omissions; natural disasters; and workers' compensation, for which it carries commercial insurance. Settled claims have not exceeded this commercial coverage in any of the past three fiscal years. There were no significant reductions in the District's insurance coverage in the current year.

U. Use of Estimates

The preparation of financial statements, in conformity with accounting principles generally accepted in the United States of America, requires management to make estimates and assumptions that affect the amounts reported at the date of the financial statements and during the reporting period. Actual results could differ from those estimates.

V. Prior Period Comparative Financial Information/Reclassification

The basic financial statements include certain prior year partial comparative information in total, but not at the level of detail required for a presentation in conformity with accounting principles generally accepted in the United States of America. Accordingly, such information should be read in conjunction with the District's financial statements for the year ended June 30, 2019, from which the summarized information was derived. Also, certain amounts presented in the prior year data have been reclassified in order to be consistent with the current year's presentation.

W. Change in Accounting Principle

During the year ended June 30, 2020, the District adopted new accounting guidance by implementing the provisions of GASB Statement No. 84, *Fiduciary Activities*, which establishes new criteria for identifying and reporting fiduciary activities. The implementation of this statement resulted in reporting extracurricular student activity fund activity, previously excluded from the District's reporting entity, within the General Fund and governmental activities. The District previously presented a trust fund for other employee benefits, which has also been combined into the General Fund and governmental activities. The standard required retroactive implementation, which resulted in increases of \$37,862 to the beginning fund balance of the General Fund and Net Position of Governmental Activities, and a decrease of \$39,411 in the beginning net position of the previously reported Employee Benefits Trust Fund.

NOTE 2 – DEPOSITS AND INVESTMENTS

A. Components of Cash and Investments

Cash and investments at year-end consist of the following:

Deposits Investments Petty cash	\$ 8,043,903 24,129,181 2,267
Total	\$ 32,175,351
Cash and investments are presented in the financial statements as follows:	
Statement of Net Position Cash and temporary investments Temporarily restricted – cash and investments for OPEB	\$ 21,310,888 10,864,463

Total

B. Deposits

In accordance with applicable Minnesota Statutes, the District maintains deposits at depository banks authorized by the School Board, including checking accounts, savings accounts, and nonnegotiable certificates of deposit.

32,175,351

The following is considered the most significant risk associated with deposits:

Custodial Credit Risk – In the case of deposits, this is the risk that in the event of a bank failure, the District's deposits may be lost.

Minnesota Statutes require that all deposits be protected by federal deposit insurance, corporate surety bond, or collateral. The market value of collateral pledged must equal 110 percent of the deposits not covered by federal deposit insurance or corporate surety bonds. Authorized collateral includes treasury bills, notes, and bonds; issues of U.S. government agencies; general obligations rated "A" or better; revenue obligations rated "AA" or better; irrevocable standard letters of credit issued by the Federal Home Loan Bank; and certificates of deposit. Minnesota Statutes require that securities pledged as collateral be held in safekeeping in a restricted account at the Federal Reserve Bank or in an account at a trust department of a commercial bank or other financial institution that is not owned or controlled by the financial institution furnishing the collateral. The District's deposit policies do not further limit depository choices.

At year-end, the bank balances of the District's deposits totaled \$8,958,991, all of which were fully covered by federal deposit insurance, surety bonds, or collateral held by the District's agent in the District's name.

NOTE 2 – DEPOSITS AND INVESTMENTS (CONTINUED)

C. Investments

The District has the following investments at year-end:

			Fair Value								
	Crec	lit Risk	Measurements		Interest Ris	isk – Maturity Duration in Years					
Deposits/Investments	Rating	Agency	Using	Less Than 1		1 to 5		6 to 10			Total
U.S. treasury securities	1	J/A	Level 1	\$	148,705	\$	1,244,841	\$	_	\$	1,393,546
Corporate obligations	AA	S&P	Level 1	\$	-	\$	80,363	\$	_		80,363
Corporate obligations	А	S&P	Level 1	\$	-	\$	644,456	\$	86,088		730,544
Corporate obligations	А	Moody's	Level 1	\$	-	\$	238,633	\$	113,933		352,566
Corporate obligations	BBB	S&P	Level 1	\$	-	\$	494,883	\$	-		494,883
Corporate obligations	Baa	Moody's	Level 1	\$	-	\$	395,639	\$	-		395,639
Equities	Not	Rated	Level 1		N/A		N/A		N/A		2,727,796
Real asset mutual funds	Not	Rated	Level 2		N/A		N/A		N/A		455,380
Real estate investment trusts	Not	Rated	Level 1		N/A		N/A		N/A		41,226
Mutual funds	AAA	S&P	Level 1		N/A		N/A		N/A		1,219,761
Mutual funds	Not	Rated	Level 1		N/A		N/A		N/A		4,192,520
MNTrust Term Series	Not	Rated	N/A	\$	4,000,000	\$	_	\$	-		4,000,000
MNTrust Investment Shares Portfolio	AAA	S&P	N/A		N/A		N/A		N/A		8,044,957
Total investments										\$ 2	24,129,181
N/A – Not Applicable											

The District's investments include investment pools managed by MNTrust, which are external investment pools regulated by Minnesota Statutes not registered with the Securities and Exchange Commission. The District's investments in these investment pools are measured at the net asset value per share provided by the pools, which are based on amortized cost methods that approximate fair value. There are no restrictions or limitations on withdrawals from the MNTrust Investment Shares Portfolio. MNTrust Term Series Portfolios are intended to be held until maturity; a participant's withdrawal prior to maturity will require seven-days' notice of redemption and will likely carry a penalty, which could be substantial in that it would be intended to allow the MNTrust Term Series Portfolio to recoup any associated penalties, charges, losses or other costs associated with the early redemption of the investments therein.

Investments are subject to various risks, the following of which are considered the most significant:

Custodial Credit Risk – For investments, this is the risk that in the event of a failure of the counterparty to an investment transaction (typically a broker-dealer) the District would not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. Although the District's investment policies do not directly address custodial credit risk, it typically limits its exposure by purchasing insured or registered investments, or by the control of who holds the securities.

Credit Risk – This is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. Minnesota Statutes limit the District's investments to direct obligations or obligations guaranteed by the United States or its agencies; shares of investment companies registered under the Federal Investment Company Act of 1940 that receive the highest credit rating, are rated in one of the two highest rating categories by a statistical rating agency, and all of the investments have a final maturity of 13 months or less; general obligations rated "A" or better; revenue obligations rated "AA" or better; general obligations of the Minnesota Housing Finance Agency rated "A" or better; bankers' acceptances of United States banks eligible for purchase by the Federal Reserve System; commercial paper issued by United States corporations or their Canadian subsidiaries, rated of the highest quality category by at least two nationally recognized rating agencies, and maturing in 270 days or less; Guaranteed Investment Contracts with parties meeting minimum stator requirements; repurchase or reverse purchase agreements and securities lending agreements with financial institutions qualified as a "depository" by the government entity, with banks that are members of the Federal Reserve System with capitalization exceeding \$10,000,000; that are a primary reporting dealer in U.S. government securities to the Federal Reserve Bank of New York; or certain Minnesota securities broker-dealers.

NOTE 2 – DEPOSITS AND INVESTMENTS (CONTINUED)

For assets held in the District's revocable OPEB trust accounted for in its OPEB Internal Service Fund, the investment options available to the District are expanded to include the investment types specified in Minnesota Statutes § 356A.06, Subd. 7. The District's investment policies do not further restrict investing in specific financial instruments.

Interest Rate Risk – This is the risk of potential variability in the fair value of fixed rate investments resulting from changes in interest rates (the longer the period for which an interest rate is fixed, the greater the risk). The District's investment policies do not limit the maturities of investments; however, when purchasing investments, the District considers such things as interest rates and cash flow needs.

Concentration Risk – This is the risk associated with investing a significant portion of the District's investments (considered 5.0 percent or more) in the securities of a single issuer, excluding U.S. guaranteed investments (such as treasuries), investment pools, and mutual funds. The District's investment policies do not address concentration risk.

NOTE 3 – CAPITAL ASSETS

Capital assets activity for the year ended June 30, 2020 is as follows:

	Balance – 06/30/2019	Additions	Additions Deletions		
Capital assets, not depreciated					
Land	\$ 651,721	\$ 8,000	\$ –	\$ 659,721	
Construction in progress	268,667	3,319,056		3,587,723	
Total capital assets, not depreciated	920,388	3,327,056	-	4,247,444	
Capital assets, depreciated					
Buildings and improvements	92,063,754	7,620	_	92,071,374	
Furniture and equipment	3,807,651	515,820	38,000	4,285,471	
Total capital assets, depreciated	95,871,405	523,440	38,000	96,356,845	
Less accumulated depreciation for					
Buildings and improvements	(28,285,040)	(1,890,078)	_	(30,175,118)	
Furniture and equipment	(2,575,276)	(281,808)	(38,000)	(2,819,084)	
Total accumulated depreciation	(30,860,316)	(2,171,886)	(38,000)	(32,994,202)	
Net capital assets, depreciated	65,011,089	(1,648,446)		63,362,643	
Total capital assets, net	\$ 65,931,477	\$ 1,678,610	\$ -	\$ 67,610,087	

Depreciation expense for the year was charged to the following governmental functions:

District support services	\$ 7,616	,
Elementary and secondary regular instruction	19,550	1
Pupil support services	117,909	
Food service	17,511	
Community service	1,017	
Depreciation not allocated directly to programs	2,008,283	_
Total depreciation expense	\$ 2,171,886	

NOTE 4 – LONG-TERM LIABILITIES

A. General Obligation Bonds and Certificates of Participation Payable

The District currently has the following general obligation debt outstanding:

Issue	Issue Date	sue Date Interest Rate Face/Par Value Maturities		(Principal Outstanding	
2014A Building Bonds	02/06/2014	3.00-5.00%	\$ 24,750,000	02/01/2027-02/01/2033	\$	24,315,000
2014B Refunding Bonds	07/17/2014	4.00-5.00%	\$ 24,320,000	02/01/2021-02/01/2026		15,745,000
2016A Taxable OPEB Refunding Bonds	10/19/2016	2.00-2.50%	\$ 9,725,000	02/01/2021-02/01/2028		8,720,000
2019A Certificates of Participation	10/19/2019	2.00-4.00%	\$ 3,775,000	02/01/2021-02/01/2039		3,555,000
2019B Refunding Bonds	11/14/2019	5.00%	\$ 2,655,000	02/01/2021-02/01/2026		2,655,000
Total general obligation debt payable					\$	54,990,000

These bonds and certificates were issued to finance acquisition and/or construction of capital facilities, to finance (refund) prior bond issues, or to finance OPEB. Assets of the Debt Service Fund, together with scheduled future ad valorem tax levies, are dedicated for the retirement of the bonds. The annual future debt service levies authorized are equal to 105 percent of the principal and interest due each year. These levies are subject to reduction if fund balance amounts exceed limitations imposed by Minnesota law. The certificates will be repaid through a separate levy collected in the General Fund.

In November 2019, the District issued \$2,655,000 of General Obligation Alternative Facilities Refunding Bonds, Series 2019B. The proceeds of this issue were used to redeem the 2021 through 2026 maturities of the District's General Obligation Alternative Facilities Bonds, Series 2011A. This refunding reduced the District's total future debt service payments by \$232,305, and resulted in present value savings of \$217,467. The new bonds bear an interest rate of 5.00 percent and mature on February 1, 2026.

B. Special Assessments Payable

In January 2000, the District entered into an agreement with the City of Inver Grove Heights (the City) for payment of \$350,000 in special assessments for Cahill Avenue improvements. The assessments require annual principal and interest payments of varying amounts (at an interest rate of 5.5 percent) over a period of 20 years, maturing in July 2020. The assessments are being repaid through the General Fund.

C. Capital Leases Payable

The District entered into a capital lease agreement to finance a building addition at Hilltop Elementary School. The lease bears an interest rate of 3.95 percent, and requires equal semiannual payments through January 15, 2029. The lease is secured by a ground lease on the land, together with the building and improvements thereon. If the District fails to make the rental payments specified in this agreement or otherwise defaults on the lease, the lessor may 1) enter the leased property and take possession without terminating the lease, holding the District responsible for the difference in the net income derived from such possession and the rent due under this agreement, 2) exclude the District responsible for the rent due under this agreement until the property is sold or leased again, or 3) take legal action to force performance under the terms of the lease. The addition has been capitalized in buildings and improvements at a value of \$2,458,600. Accumulated depreciation on this asset as of June 30, 2020 was \$295,032. The lease is being paid through the General Fund.

In fiscal 2019 and 2020, the District entered into four lease-purchase agreements for technology equipment. The leases require annual payments through September 1, 2022 and bear interest rates ranging from 1.97-2.49 percent. Individual assets acquired through these leases were below the District's capitalization threshold. The leases are being paid through the General Fund.

NOTE 4 - LONG-TERM LIABILITIES (CONTINUED)

D. Other Long-Term Liabilities

The District offers a number of benefits to its employees, including: severance, pension benefits, and OPEB, the details of which are discussed elsewhere in these notes. The District has established two internal service funds to account for the financing of these benefits.

District employees participate in several pension plans described later in these notes, including two state-wide, cost-sharing, multiple-employer defined benefit plans administered by the PERA and the TRA, and one single-employer defined benefit plan administered by the District. The following is a summary of the net pension liabilities, deferred outflows and inflows of resources, and pension expense reported for these plans as of and for the year ended June 30, 2020:

Defined Benefit Pension Plans	 Net/Total Pension Liability	 erred Outflows f Resources	200	ferred Inflows of Resources	 Pension Expense
State-wide, multiple-employer – PERA State-wide, multiple-employer – TRA Single-employer – District	\$ 5,843,916 22,602,278 1,650,468	\$ 782,174 21,150,437 431,751	\$	1,105,754 33,436,270 1,913	\$ 649,368 4,179,163 177,571
Total	\$ 30,096,662	\$ 22,364,362	\$	34,543,937	\$ 5,006,102

E. Minimum Debt Payments

Minimum annual principal and interest payments to maturity for general obligation bonds and certificates of participation, special assessments, and capital leases are as follows:

Year Ending	General Obl	ligation Debt	Special Assessments					Capital	Leases			
June 30,	Principal	Interest	Principal I		Interest		Principal		Interest			
2021	\$ 3,145,000	\$ 1,971,088	\$	6,250	\$	344	\$	379,635	\$	70,226		
2022	3,325,000	1,843,287		_		_		215,230		59,084		
2023	3,475,000	1,709,388		_		_		198,591		51,648		
2024	3,640,000	1,568,887		_		_		175,753		44,317		
2025	3,780,000	1,447,350		_		_		182,764		37,306		
2026-2030	21,140,000	5,337,843		-		-		806,928		73,351		
2030-2033	15,575,000	1,350,425		-		-		-		-		
2036-2039	910,000	60,975		_		_		_		_		
	\$ 54,990,000	\$ 15,289,243	\$	6,250	\$	344	\$	1,958,901	\$	335,932		

F. Changes in Long-Term Liabilities

	June 30, 2019	 Additions Retirements		June 30, 2020	_	Due Within One Year	
G.O. bonds and certificates	\$ 54,725,000	\$ 6,430,000	\$	6,165,000	\$ 54,990,000	\$	3,145,000
Unamortized premiums (discounts)	2,346,582	515,713		354,545	2,507,750		_
Special assessments payable	18,750	_		12,500	6,250		6,250
Capital leases payable	2,212,823	117,187		371,109	1,958,901		379,635
Severance payable	1,046,605	248,291		121,115	1,173,781		50,796
Total OPEB liability	6,650,849	1,162,307		752,986	7,060,170		-
Net/total pension liabilities	29,659,376	 3,093,555		2,656,269	30,096,662		
	\$ 96,659,985	\$ 11,567,053	\$	10,433,524	\$ 97,793,514	\$	3,581,681

NOTE 5 – FUND BALANCES

A. Classifications

The following is a breakdown of the equity components of governmental funds defined earlier in the report. When applicable, certain restrictions, which have an accumulated deficit balance at June 30, are included in unassigned fund balance in these financial statements in accordance with accounting principles generally accepted in the United States of America. A description of these deficit balance restrictions is included here, since the District has specific authority to future resources for such deficits. At June 30, 2020, a summary of the District's governmental fund balance classifications is as follows:

	General Fund	Capital Projects – Building Construction Fund	Debt Service Fund	Nonmajor Funds	Total
Nonspendable					
Inventory	\$ -	\$ -	\$ -	\$ 66,095	\$ 66,095
Prepaid items	507,652			8,640	516,292
Total nonspendable	507,652	-	_	74,735	582,387
Restricted					
Student activities	47,153	_	_	_	47,153
Operating capital	1,072,553	-	_	-	1,072,553
Basic skills programs	265,099	_	_	_	265,099
Safe schools	78,470	-	_	-	78,470
Long-term facilities maintenance	1,710,477	-	_	-	1,710,477
Medical Assistance	513,505	_	—	-	513,505
Projects funded by COP	-	243,273	_	-	243,273
General debt service	_	_	1,142,249	-	1,142,249
OPEB bonds debt service	_	_	153,223	-	153,223
Food service	-	-	_	670,619	670,619
Community education programs	_	_	—	149,115	149,115
School readiness				38,441	38,441
Total restricted	3,687,257	243,273	1,295,472	858,175	6,084,177
Assigned					
Separation and severance	1,000,000	_	_	_	1,000,000
Next year's budget	204,004	_	_	_	204,004
Program carryover	350,000	_	_	_	350,000
Other capital projects	2,300,000		_		2,300,000
Total assigned	3,854,004		-	-	3,854,004
Unassigned	3,813,365				3,813,365
Total	\$ 11,862,278	\$ 243,273	\$ 1,295,472	\$ 932,910	\$ 14,333,933

B. Minimum Unassigned Fund Balance Policy

The School Board has formally adopted a fund balance policy regarding the minimum unassigned fund balance for the General Fund. The policy establishes a minimum unassigned General Fund balance (excluding any restricted account deficits) of 8.0 percent of the annual projected expenditures. At June 30, 2020, the unassigned fund balance of the General Fund was 8.0 percent of General Fund expenditures budgeted for the current year.

NOTE 6 - DEFINED BENEFIT PENSION PLANS - STATE-WIDE

A. Plan Descriptions

The District participates in the following cost-sharing, multiple-employer defined benefit pension plans administered by the PERA and the TRA. The PERA's and the TRA's defined benefit pension plans are established and administered in accordance with Minnesota Statutes. The PERA's and the TRA's defined benefit pension plans are tax qualified plans under Section 401(a) of the IRC.

1. General Employees Retirement Fund (GERF)

The PERA's defined benefit pension plans are established and administered in accordance with Minnesota Statutes, Chapters 353 and 356.

All full-time and certain part-time employees of the District other than teachers are covered by the GERF. GERF members belong to the Coordinated Plan. Coordinated Plan members are covered by Social Security.

2. Teachers Retirement Association (TRA)

The TRA administers a Basic Plan (without Social Security coverage) and a Coordinated Plan (with Social Security coverage) in accordance with Minnesota Statutes, Chapters 354 and 356. The TRA is a separate statutory entity, administered by a Board of Trustees. The Board of Trustees consists of four active members, one retired member, and three statutory officials.

Educators employed in Minnesota's public elementary and secondary schools, charter schools, and certain other TRA-covered educational institutions maintained by the state are required to be TRA members (except those employed by St. Paul Public Schools or Minnesota State Colleges and Universities (MnSCU)). Educators first hired by MnSCU may elect either TRA coverage or coverage through the Defined Contribution Plan administered by the state of Minnesota.

B. Benefits Provided

The PERA and the TRA provide retirement, disability, and death benefits. Benefit provisions are established by state statutes and can only be modified by the State Legislature.

The benefit provisions stated in the following paragraphs of this section are current provisions and apply to active plan participants. Vested, terminated employees who are entitled to benefits, but are not receiving them yet, are bound by the provisions in effect at the time they last terminated their public service.

1. GERF Benefits

Benefits are based on a member's highest average salary for any five successive years of allowable service, age, and years of credit at termination of service. Two methods are used to compute benefits for the PERA's Coordinated Plan members. Members hired prior to July 1, 1989, receive the higher of Method 1 or Method 2 formulas. Only Method 2 is used for members hired after June 30, 1989. Under Method 1, the accrual rate for Coordinated Plan members is 1.2 percent of average salary for each of the first 10 years of service and 1.7 percent of average salary for each additional year. Under Method 2, the accrual rate for Coordinated Plan members is 1.7 percent of average salary for all years of service. For members hired prior to July 1, 1989, a full annuity is available when age plus years of service equal 90 and normal retirement age is 65. For members hired on or after July 1, 1989, normal retirement age is the age for unreduced Social Security benefits capped at age 66.

Annuities, disability benefits, and survivor benefits are increased effective every January 1. Beginning January 1, 2019, the post-retirement increase will be equal to 50.0 percent of the cost of living adjustment announced by the Social Security Administration, with the minimum increase of at least 1.0 percent and a maximum of 1.5 percent. Recipients that have been receiving the annuity or benefit for at least a full year as of the June 30 before the effective date of the increase, will receive the full increase. For recipients receiving the annuity or benefit at least one month but less than a full year as of the June 30 before the effective date of the increase, will receive a reduced prorated increase. For members retiring on January 1, 2024, or later, the increase will be delayed until normal retirement age (age 65 if hired prior to July 1, 1989, or age 66 for individuals hired on or after July 1, 1989). Members retiring under the Rule of 90 are exempt from the delay to normal retirement.

2. TRA Benefits

The TRA provides retirement benefits as well as disability benefits to members, and benefits to survivors upon death of eligible members. Benefits are established by Minnesota Statutes and vest after three years of service credit. The defined retirement benefits are based on a member's highest average salary for any five consecutive years of allowable service, age, and a formula multiplier based on years of credit at termination of service.

Two methods are used to compute benefits for the TRA's Coordinated and Basic Plan members. Members first employed before July 1, 1989, receive the greater of the Tier I or Tier II benefits as described.

Step-Rate Formula	Percentage per Year
Basic Plan	
First 10 years of service	2.2 %
All years after	2.7 %
Coordinated Plan	
First 10 years if service years are up to July 1, 2006	1.2 %
First 10 years if service years are July 1, 2006 or after	1.4 %
All other years of service if service years are up to July 1, 2006	1.7 %
All other years of service if service years are up to July 1, 2006 or after	1.9 %

Tier I Benefits

With these provisions:

- (a) Normal retirement age is 65 with less than 30 years of allowable service and age 62 with 30 or more years of allowable service.
- (b) Three percent per year early retirement reduction factor for all years under normal retirement age.
- (c) Unreduced benefits for early retirement under a Rule of 90 (age plus allowable service equals 90 or more).

Tier II Benefits

For years of service prior to July 1, 2006, a level formula of 1.7 percent per year for Coordinated Plan members and 2.7 percent per year for Basic Plan members applies. For years of service July 1, 2006 and after, a level formula of 1.9 percent per year for Coordinated Plan members and 2.7 percent for Basic Plan members applies. Beginning July 1, 2015, the early retirement reduction factors are based on rates established under Minnesota Statutes. Smaller reductions, more favorable to the member, will be applied to individuals who reach age 62 and have 30 years or more of service credit.

Members first employed after June 30, 1989, receive only the Tier II benefit calculation with a normal retirement age that is their retirement age for full Social Security retirement benefits, but not to exceed age 66.

Six different types of annuities are available to members upon retirement. The No Refund Life Plan is a lifetime annuity that ceases upon the death of the retiree—no survivor annuity is payable. A retiring member may also choose to provide survivor benefits to a designated beneficiary(ies) by selecting one of the five plans that have survivorship features. Vested members may also leave their contributions in the TRA Fund upon termination of service in order to qualify for a deferred annuity at retirement age. Any member terminating service is eligible for a refund of their employee contributions plus interest.

The benefit provisions stated apply to active plan participants. Vested, terminated employees who are entitled to benefits, but not yet receiving them, are bound by the plan provisions in effect at the time they last terminated their public service.

C. Contributions

Minnesota Statutes set the rates for employer and employee contributions. Contribution rates can only be modified by the State Legislature.

1. GERF Contributions

Minnesota Statutes, Chapter 353 sets the rates for employer and employee contributions. Coordinated Plan members were required to contribute 6.5 percent of their annual covered salary in fiscal year 2020 and the District was required to contribute 7.5 percent for Coordinated Plan members. The District's contributions to the GERF for the year ended June 30, 2020, were \$581,285. The District's contributions were equal to the required contributions as set by state statutes.

2. TRA Contributions

Minnesota Statutes, Chapter 354 sets the rates for employer and employee contributions. Rates for each fiscal year were:

	Year Ended June 30,							
	2018 2019 2020							
	Employee	Employer	Employee	Employer	Employee	Employer		
Basic Plan	11.00 %	11.50 %	11.00 %	11.71 %	11.00 %	11.92 %		
Coordinated Plan	7.50 %	7.50 %	7.50 %	7.71 %	7.50 %	7.92 %		

The District's contributions to the TRA for the plan's fiscal year ended June 30, 2020, were \$1,616,894. The District's contributions were equal to the required contributions for each year as set by state statutes.

The following is a reconciliation of employer contributions in the TRA's Comprehensive Annual Financial Report (CAFR) Statement of Changes in Fiduciary Net Position to the employer contributions used in the Schedule of Employer and Nonemployer Pension Allocations:

	in	thousands
Employer contributions reported in the TRA's CAFR		
Statement of Changes in Fiduciary Net Position	\$	403,300
Add employer contributions not related to future		
contribution efforts		(688)
Deduct the TRA's contributions not included in allocation		(486)
Total employer contributions		402,126
Total nonemployer contributions		35,588
Total contributions reported in the Schedule of Employer		
and Nonemployer Pension Allocations	\$	437,714

Amounts reported in the allocation schedules may not precisely agree with financial statement amounts or actuarial valuations, due to the number of decimal places used in the allocations. The TRA has rounded percentage amounts to the nearest ten thousandths.

D. Pension Costs

1. GERF Pension Costs

At June 30, 2020, the District reported a liability of \$5,843,916 for its proportionate share of the GERF's net pension liability. The net pension liability was measured as of June 30, 2019, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportion of the net pension liability was based on the District's contributions received by the PERA during the measurement period for employer payroll paid dates from July 1, 2018, through June 30, 2019, relative to the total employer contributions received from all of the PERA's participating employers. The District's proportionate share was 0.1057 percent at the end of the measurement period and 0.1049 percent for the beginning of the period.

The District's net pension liability reflected a reduction due to the state of Minnesota's contribution of \$16.0 million. The state of Minnesota is considered a nonemployer contributing entity and the state's contribution meets the definition of a special funding situation. The amounts recognized by the District as its proportionate share of the net pension liability, the direct aid, and total portion of the net pension liability that was associated with the District were as follows:

District's proportionate share of the net pension liability	\$ 5,843,916
State's proportionate share of the net pension liability	
associated with the District	\$ 181,659

For the year ended June 30, 2020, the District recognized pension expense of \$635,763 for its proportionate share of the GERF's pension expense. In addition, the District recognized an additional \$13,605 as pension expense (and grant revenue) for its proportionate share of the state of Minnesota's contribution of \$16.0 million to the GERF.

At June 30, 2020, the District reported its proportionate share of the GERF's deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources		Deferred Inflows of Resources	
Differences between expected and actual economic experience	\$	161,219	\$	_
Changes in actuarial assumptions		_		456,153
Difference between projected and actual investment earnings		_		576,526
Changes in proportion		39,670		73,075
District's contributions to the GERF subsequent to the				
measurement date		581,285		_
Total	\$	782,174	\$	1,105,754

A total of \$581,285 reported as deferred outflows or resources related to pensions resulting from district contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2021. Other amounts reported as deferred outflows and inflows of resources related to the GERF pensions will be recognized in pension expense as follows:

		Pension		
Year Ending]	Expense		
June 30,	Amount			
2021	\$	(357,342)		
2022	\$	(451,971)		
2023	\$	(104,970)		
2024	\$	9,418		

2. TRA Pension Costs

At June 30, 2020, the District reported a liability of \$22,602,278 for its proportionate share of the TRA's net pension liability. The net pension liability was measured as of June 30, 2019, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportion of the net pension liability was based on the District's contributions to the TRA in relation to total system contributions, including direct aid from the state of Minnesota, City of Minneapolis, and Special School District No. 1, Minneapolis Public Schools. The District's proportionate share was 0.3546 percent at the end of the measurement period and 0.3495 percent for the beginning of the period.

The pension liability amount reflected a reduction, due to direct aid provided to the TRA. The amount recognized by the District as its proportionate share of the net pension liability, the direct aid, and total portion of the net pension liability that was associated with the District were as follows:

District's proportionate share of the net pension liability	\$ 22,602,278
State's proportionate share of the net pension liability	
associated with the District	\$ 2,000,332

For the year ended June 30, 2020, the District recognized pension expense of \$4,027,114. It also recognized \$152,049 as an increase to pension expense (and grant revenue) for the support provided by direct aid.

At June 30, 2020, the District reported its proportionate share of the TRA's deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources	
Differences between expected and actual economic experience	\$ -	\$ 544,738	
Changes in actuarial assumptions	19,157,316	29,568,703	
Difference between projected and actual investment earnings	_	1,807,693	
Changes in proportion	376,227	1,515,136	
District's contributions to the TRA subsequent to the			
measurement date	1,616,894		
Total	\$ 21,150,437	\$ 33,436,270	

A total of \$1,616,894 reported as deferred outflows of resources related to pensions resulting from district contributions to the TRA subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2021. Other amounts reported as deferred outflows and inflows of resources related to the TRA pensions will be recognized in pension expense as follows:

Year Ending June 30,	Pension Expense Amount		
2021 2022 2023 2024 2025	\$ \$ \$ \$	1,011,541 (161,813) (8,854,622) (5,909,322) 11,489	

E. Actuarial Assumptions

The total pension liability in the June 30, 2019 actuarial valuation was determined using an individual entry-age normal actuarial cost method and the following actuarial assumptions:

Assumptions	GERF	TRA
Inflation	2.50%	2.50%
Wage growth rate		2.85% for 10 years, and 3.25% thereafter
Active member payroll	3.25%	2.85% to 8.85% for 10 years, and 3.25% to 9.25% thereafter
Investment rate of return	7.50%	7.50%

Salary increases were based on a service-related table. Mortality rates for active members, retirees, survivors, and disabilitants for all plans were based on RP-2014 tables for males or females, as appropriate, with slight adjustments. Cost of living benefit increases after retirement for retirees are assumed to be 1.25 percent per year for the GERF and 1.00 percent for January 2019 through January 2023, then increasing by 0.10 percent each year up to 1.50 percent annually for the TRA.

Actuarial assumptions used in the June 30, 2019 valuations were based on the results of actuarial experience studies. The most recent four-year experience study in the GERF plan was completed in 2019. Economic assumptions were updated in 2018, based on a review of inflation and investment return assumptions. The most recent experience study in the TRA plan was completed in 2015, with economic assumptions updated in 2017.

The following changes in actuarial assumptions and plan provisions occurred in 2019:

1. GERF

CHANGES IN ACTUARIAL ASSUMPTIONS

• The mortality projection scale was changed from MP-2017 to MP-2018.

CHANGES IN PLAN PROVISIONS

• The employer supplemental contribution was changed prospectively, decreasing from \$31.0 million to \$21.0 million per year. The state's special funding contribution was changed prospectively, requiring \$16.0 million due per year through 2031.

2. TRA

CHANGES IN ACTUARIAL ASSUMPTIONS

• None.

The Minnesota State Board of Investment, which manages the investments of the PERA and the TRA, prepares an analysis of the reasonableness on a regular basis of the long-term expected rate of return using a building-block method in which best-estimate ranges of expected future rates of return are developed for each major asset class. These ranges are combined to produce an expected long-term rate of return by weighting the expected future rates of return by the target asset allocation percentages.

The target allocation and best-estimates of geometric real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Asset Class	Anocation	Keal Kate of Keturn
Domestic equity	35.5 %	5.10 %
Private markets	25.0	5.90 %
Fixed income	20.0	0.75 %
International equity	17.5	5.30/5.90 %
Cash equivalents	2.0	- %
Total	100.0 %	

F. Discount Rate

1. GERF

The discount rate used to measure the total pension liability in 2019 was 7.50 percent. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and employers will be made at rates set in Minnesota Statutes. Based on these assumptions, the fiduciary net position of the GERF was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

2. TRA

The discount rate used to measure the total pension liability was 7.50 percent. There was no change since the prior measurement. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the fiscal year 2019 contribution rate, contributions from school districts will be made at contractually required rates (actuarially determined), and contributions from the state will be made at current statutorily required rates. Based on those assumptions, the pension plan's fiduciary net position was not projected to be depleted and, as a result, the Municipal Bond Index Rate was not used in the determination of the Single Equivalent Interest Rate.

G. Pension Liability Sensitivity

The following table presents the District's proportionate share of the net pension liability for all plans it participates in, calculated using the discount rate disclosed in the preceding paragraph, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate 1 percentage point lower or 1 percentage point higher than the current discount rate:

	1% Decrease in Discount Rate				170	Increase in scount Rate
GERF discount rate		6.50%		7.50%		8.50%
District's proportionate share of the GERF net pension liability	\$	9,607,084	\$	5,843,916	\$	2,736,673
TRA discount rate		6.50%		7.50%		8.50%
District's proportionate share of the TRA net pension liability	\$	36,033,558	\$	22,602,278	\$	11,528,386

H. Pension Plan Fiduciary Net Position

Detailed information about the GERF's fiduciary net position is available in a separately issued PERA financial report. That report may be obtained on the PERA website at www.mnpera.org; by writing to the PERA at 60 Empire Drive, Suite 200, St. Paul, Minnesota 55103; or by calling (651) 296-7460 or (800) 652-9026.

Detailed information about the TRA's fiduciary net position is available in a separately issued TRA financial report. That report can be obtained on the TRA website at www.minnesotatra.org; by writing to the TRA at 60 Empire Drive, Suite 400, St. Paul, Minnesota 55103; or by calling (651) 296-2409 or (800) 657-3669.

I. Subsequent Events and the COVID-19 Pandemic Subsequent to Year-End

The United States and global markets experienced declines in values, resulting from uncertainty caused by COVID-19. The resulting declines are expected to have a negative impact on the PERA's and the TRA's discount rate, as well as the value of each plan's investments. Any impact caused by the resulting declines have not been included in the schedules as of June 30, 2019.

NOTE 7 – DEFINED BENEFIT PENSION PLAN – DISTRICT

A. Plan Description and Benefits

The District provides pension benefits to certain eligible employees through its Pension Benefits Plan, a single-employer defined benefit plan administered by the District. All pension benefits are based on contractual agreements with employee groups. Eligibility for these benefits is based on years of service and/or minimum age requirements. These contractual agreements do not include any specific contribution or funding requirements. The plan does not issue a publicly available financial report.

Teachers hired before July 1, 1997 that meet certain years of service and/or age requirements are eligible to receive an additional retirement incentive benefit. Teachers accumulate five days of credit for each full year of service to the District up through the fiscal year in which the employee reaches the age of 55. The benefit is based on an employee's rate of pay during the fiscal year in which the employee reaches the age of 55, and is paid out in two equal payments due on May 31 of the calendar year in which the eligible employee retires and the following January 15. Beneficiaries that continue to be employed by the District after the age of 55 do not accrue additional benefits.

B. Contributions and Funding Policy

The required contribution is based on projected pay-as-you-go financing requirements, with additional amounts to prefund benefits as determined periodically by the District. The District has not established a trust fund to finance these pension benefits. These benefits are accrued in the Severance and Pension Benefits Internal Service Fund as they vest. The District's required contributions to finance these benefits on a pay-as-you-go basis for the current year were \$358,152.

C. Membership

Membership in the plan consisted of the following as of the latest actuarial valuation:

Retirees and beneficiaries receiving benefits	5
Active plan members	39
Total members	44

NOTE 7 – DEFINED BENEFIT PENSION PLAN – DISTRICT (CONTINUED)

D. Actuarial Methods and Assumptions

The total pension liability was determined by an actuarial valuation date as of July 1, 2018 and measurement date as of July 1, 2019, using the entry-age method and following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified:

Discount rate	3.10%
20-year municipal bond yield	3.10%
Inflation rate	2.50%
Salary increases	3.00%

Mortality rates were based on the RP-2014 White Collar Mortality Tables with MP-2017 Generational Improvement Scale. The retirement and withdrawal assumptions used were based on those used to value pension liabilities for Minnesota school district employees. The state pension plans base their assumptions on periodic experience studies.

E. Discount Rate

The discount rate used to measure the total pension liability was 3.10 percent. Since the plan is not funded, the discount rate is equal to the 20-year municipal bond rate, which was set by considering published rate information for 20-year high quality, tax-exempt, general obligation municipal bonds as of the measurement date.

F. Changes in the Total Pension Liability

	Total Pension Liability		
Beginning balance – July 1, 2019	\$	1,888,082	
Changes for the year			
Service cost		52,507	
Interest		61,660	
Assumption changes		9,089	
Benefit payments		(360,870)	
Total net changes		(237,614)	
Ending balance – June 30, 2020	\$	1,650,468	

Assumption changes since the prior measurement date include the discount rate changing from 3.50 percent to 3.10 percent.

G. Total Pension Liability Sensitivity to Discount Rate Changes

The following presents the total pension liability of the District, as well as what the District's total pension liability would be if it were calculated using a discount rate that is 1 percentage point lower or 1 percentage point higher than the current discount rate:

	1%	1% Decrease in				1% Increase in		
	Dis	count Rate	Discount Rate		Discount Ra			
Pension discount rate		2.10%		3.10%		4.10%		
Total pension liability	\$	1,681,437	\$	1,650,468	\$	1,617,969		

NOTE 7 – DEFINED BENEFIT PENSION PLAN – DISTRICT (CONTINUED)

H. Pension Expense and Related Deferred Outflows and Deferred Inflows of Resources

The District recognized pension expense of \$177,571 for the current year, and reported deferred outflows and inflows of resources related to this pension plan at year-end from the following sources:

		red Outflows Resources	Deferred Inflows of Resources	
Differences between expected and actual economic experience	\$	67,540	\$	_
Changes in actuarial assumptions		6,059		1,913
District's contributions subsequent to the measurement date	358,152			_
Total	\$	431,751	\$	1,913

A total of \$358,152 reported as deferred outflows of resources related to pensions resulting from district contributions subsequent to the measurement date will be recognized as a reduction of the total pension liability in the year ending June 30, 2021. Other amounts reported as deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ending June 30,	on Expense Amount
2021	\$ 68,657
2022	\$ 3,029

NOTE 8 - OTHER POST-EMPLOYMENT BENEFITS (OPEB) PLAN

A. Plan Description and Benefits Provided

The District provides post-employment insurance benefits to certain eligible employees through its OPEB Plan, a single-employer defined benefit plan administered by the District. All post-employment benefits are based on contractual agreements with employee groups. Eligibility for these benefits is based on years of service and/or minimum age requirements. These contractual agreements do not include any specific contribution or funding requirements. The plan does not issue a publicly available financial report. No plan assets are accumulated in a trust that meets the criteria in paragraph 4 of GASB Statement No. 75.

Employees that meet certain age and/or length of service requirements are eligible for post-retirement healthcare benefits. The amount to be paid is equal to the single coverage insurance premium benefit available to full-time employees in the bargaining group.

- The superintendent and certain eligible directors and assistant directors are eligible to receive the premium for single medical coverage at the time of retirement for a period of seven years or until Medicare eligibility, whichever is first.
- Eligible principals receive a one-time benefit of \$60,000 if hired before July 1, 2008, or \$30,000 if hired on or after July 1, 2008.
- Eligible full-time teachers retiring after June 30, 2007 with 20 years of continuous service receive a one-time benefit equivalent to 91 percent of the teachers' B.A. Step 1 salary. Part-time teachers that retire with at least 25 years of continuous service working at least half of a full-time schedule will receive a prorated portion of the benefit. All benefits are to be paid into an individual healthcare savings plan account administered by the Minnesota State Retirement System.

NOTE 8 - OTHER POST-EMPLOYMENT BENEFITS (OPEB) PLAN (CONTINUED)

The District is legally required to include any retirees for whom it provides health insurance coverage in the same insurance pool as its active employees, whether the premiums are paid by the District or the retiree. Consequently, participating retirees are considered to receive a secondary benefit known as an "implicit rate subsidy." This benefit relates to the assumption that the retiree is receiving a more favorable premium rate than they would otherwise be able to obtain if purchasing insurance on their own, due to being included in the same pool with the District's younger and statistically healthier active employees.

B. Contributions

The required contributions are based on projected pay-as-you-go financing requirements, with additional amounts to prefund benefits as determined periodically by the District. The District's required contributions to finance the benefits described in the previous section, on a pay-as-you-go basis for the current year, totaled \$504,737.

C. Membership

Membership in the plan consisted of the following as of the latest actuarial valuation:

Retirees and beneficiaries receiving benefits	22
Active plan members	455
Total members	477

D. Total OPEB Liability of the District

The District's total OPEB liability was \$7,060,170 at year-end.

E. Actuarial Methods and Assumptions

The total OPEB liability was determined by an actuarial valuation date as of July 1, 2018 and measurement date as of July 1, 2019, using entry-age method and the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified:

Discount rate	3.10%
20-year municipal bond yield	3.10%
Inflation rate	2.50%
Salary increases	3.00%
Medical trend rate	6.25%, grading to 5.00% over 5 years

Since the plan is not funded by an irrevocable trust, the discount rate is equal to the 20-year municipal bond yield of 3.10 percent.

Mortality rates were based on the RP-2014 White Collar Mortality Tables with MP-2017 Generational Improvement Scale. The retirement and withdrawal assumptions used were based on those used to value pension liabilities for Minnesota school district employees. The state pension plans base their assumptions on periodic experience studies.

NOTE 8 – OTHER POST-EMPLOYMENT BENEFITS (OPEB) PLAN (CONTINUED)

F. Changes in the Total OPEB Liability

	Total OPEB Liability		
Beginning balance		6,650,849	
Changes for the year			
Service cost		586,398	
Interest		243,424	
Assumption changes		148,947	
Benefit payments		(569,448)	
Total net changes	_	409,321	
Ending balance	\$	7,060,170	

Assumption changes since the prior measurement date include the discount rate changing from 3.50 percent to 3.10 percent.

G. Total OPEB Liability Sensitivity to Discount and Healthcare Cost Trend Rate Changes

The following presents the total OPEB liability of the District, as well as what the District's total OPEB liability would be if it were calculated using a discount rate that is 1 percentage point lower or 1 percentage point higher than the current discount rate:

	Decrease in scount Rate	Discount Rate		Increase in scount Rate
OPEB discount rate	2.10%		3.10%	4.10%
Total OPEB liability	\$ 7,540,457	\$	7,060,170	\$ 6,602,495

The following presents the total OPEB liability of the District, as well as what the District's total OPEB liability would be if it were calculated using medical cost trend rates that are 1 percentage point lower or 1 percentage point higher than the current medical cost trend rates:

	Decrease in al Trend Rate	Medical Trend Rate		Increase in cal Trend Rate
OPEB medical trend rate	5.25% decreasing to 4.00% over 5 years		% decreasing to 0% over 5 years	% decreasing to 0% over 5 years
Total OPEB liability	\$ 6,517,035	\$	7,060,170	\$ 7,711,091

NOTE 8 – OTHER POST-EMPLOYMENT BENEFITS (OPEB) PLAN (CONTINUED)

H. OPEB Expense and Related Deferred Outflows of Resources and Deferred Inflows of Resources

For the current year ended, the District recognized OPEB expense of \$752,987, and reported deferred outflows and inflows of resources related to this pension plan at year-end from the following sources:

	red Outflows Resources	Deferred Inflows of Resources	
Liability gains Changes in actuarial assumptions District's contributions subsequent to the measurement date	\$ 	\$	723,310 10,527 –
Total	\$ 638,790	\$	733,837

A total of \$504,737 reported as deferred outflows of resources related to OPEB resulting from district contributions subsequent to the measurement date will be recognized as a reduction of the total OPEB liability in the year ending June 30, 2021. Other amounts reported as deferred outflows and inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Year Ending June 30,		EB Expense Amount
2021 2022 2023 2024 2025 Thereafter	\$ \$ \$ \$ \$	(76,835) (76,835) (76,835) (76,835) (76,835) (215,609)

NOTE 9 – FLEXIBLE BENEFIT PLAN

The District has established a Flexible Benefit Plan (FBP). The FBP is a "cafeteria plan" under § 125 of the IRC. All employee groups of the District are eligible if and when the collective bargaining agreement or contract with their group allows eligibility. Eligible employees can elect to participate by contributing pretax dollars withheld from payroll checks to the FBP for healthcare and dependent care benefits. Before the beginning of the FBP year, which is from January 1 to December 31, each participant designates a total amount of pretax dollars to be contributed to the FBP during the year. At June 30, the District is contingently liable for claims against the total amount of participants' annual contributions to the medical reimbursement portion of the FBP, whether or not such contributions have been made.

The employee portion of insurance premiums (health, dental, life, and disability) is made by the District directly to the designated insurance companies. Amounts are withheld for medical reimbursement and dependent care on a monthly basis. Payments are made by the District to participating employees upon submitting a request for reimbursement of eligible expenses incurred by the employee. FBP activity is accounted for in the General Fund.

All property of the FBP and income attributable to that property is solely the property of the FBP and is equal to that of general creditors of the District in an amount equal to the eligible healthcare and dependent care expenses incurred by the participants. The District believes that it is unlikely that it will use the assets to satisfy the claims of general creditors in the future.

NOTE 10 – DEFICIT FUND EQUITY

At June 30, 2020, the District reported a deficit net position of \$476,742 in its Severance and Pension Benefits Internal Service Fund. This deficit will be eliminated through future contributions from the District's governmental funds.

NOTE 11 – COMMITMENTS AND CONTINGENCIES

A. Operating Lease

In June 2016, the District entered into an agreement with the City for the use of specified facilities located within the Veterans Memorial Community Center and Grove Aquatic and Fitness Center, as well as the National Guard Armory. The agreement replaces two previous agreements to rent space at these two facilities, and covers a 10-year period from January 1, 2017 through December 31, 2026. The agreement calls for base rent payable in two semiannual installments as follows:

Calendar Year	 Amount
2021	\$ 275,000
2022	\$ 275,000
2023	\$ 283,250
2024	\$ 291,750
2025	\$ 303,415
2026	\$ 315,555

The District will also be responsible for applicable hourly use charges specified in the agreement. The District paid rent of \$262,500 under this agreement during the year ended June 30, 2020.

B. Federal and State Revenues

Amounts received or receivable from federal and state agencies are subject to agency audit and adjustment. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of funds which may be disallowed by the agencies cannot be determined at this time, although the District expects such amounts, if any, to be immaterial.

C. Legal Claims

The District has the usual and customary types of legal claims pending at year-end, mostly of a minor nature and usually covered by insurance carried for that purpose. The District's management believes that the District will not incur any material liabilities relating to these claims, and none have been accrued at year-end.

D. Contract Commitments

At June 30, 2020, the District had commitments totaling \$208,382 under one construction contract for which the work was not yet completed

NOTE 12 – SUBSEQUENT EVENTS

A. Equipment Leases

In July 2020, the District entered into a lease-purchase agreement for technology equipment valued at \$234,250. The lease calls for annual payments through July, 2022, and bears an interest rate of 1.49 percent.

In July 2020, the District entered into a lease-purchase agreement for technology equipment valued at \$134,250. The lease calls for annual payments through July, 2024, and bears an interest rate of 1.49 percent.

B. COVID-19 Pandemic

The COVID-19 pandemic has caused significant economic and financial market volatility in the United States and around the world, along with significant business and operation disruptions for many organizations. Due to the unknown breadth and duration of this pandemic, any potential impact it may have on the District's future operations and financial condition cannot be determined at this time and has not been reflected in these financial statements.

Notes to Required Supplementary Information June 30, 2020

PERA – GENERAL EMPLOYEES RETIREMENT FUND

2019 CHANGES IN PLAN PROVISIONS

• The employer supplemental contribution was changed prospectively, decreasing from \$31.0 million to \$21.0 million per year. The state's special funding contribution was changed prospectively, requiring \$16.0 million due per year through 2031.

2019 CHANGES IN ACTUARIAL ASSUMPTIONS

• The mortality projection scale was changed from MP-2017 to MP-2018.

2018 CHANGES IN PLAN PROVISIONS

- The augmentation adjustment in early retirement factors is eliminated over a five-year period starting July 1, 2019, resulting in actuarial equivalence after June 30, 2024.
- Interest credited on member contributions decreased from 4.00 percent to 3.00 percent, beginning July 1, 2018.
- Deferred augmentation was changed to zero percent, effective January 1, 2019. Augmentation that has already accrued for deferred members will still apply.
- Contribution stabilizer provisions were repealed.
- Post-retirement benefit increases were changed from 1.00 percent per year, with a provision to increase to 2.50 percent upon attainment of 90.00 percent funding ratio, to 50.00 percent of the Social Security Cost of Living Adjustment, not less than 1.00 percent and not more than 1.50 percent, beginning January 1, 2019.
- For retirements on or after January 1, 2024, the first benefit increase is delayed until the retiree reaches normal retirement age. Does not apply to Rule of 90 retirees, disability benefit recipients, or survivors.
- Actuarial equivalent factors were updated to reflect revised mortality and interest assumptions.

- The mortality projection scale was changed from MP-2015 to MP-2017.
- The assumed benefit increase was changed from 1.00 percent per year through 2044, and 2.50 percent per year thereafter, to 1.25 percent per year.

Notes to Required Supplementary Information (continued) June 30, 2020

PERA – GENERAL EMPLOYEES RETIREMENT FUND (CONTINUED)

2017 CHANGES IN PLAN PROVISIONS

- The state's contribution for the Minneapolis Employees Retirement Fund equals \$16.0 million in 2017 and 2018, and \$6.0 million thereafter.
- The Employer Supplemental Contribution for the Minneapolis Employees Retirement Fund changed from \$21.0 million to \$31.0 million in calendar years 2019 to 2031. The state's contribution changed from \$16.0 million to \$6.0 million in calendar years 2019 to 2031.

2017 CHANGES IN ACTUARIAL ASSUMPTIONS

- The Combined Service Annuity (CSA) loads were changed from 0.80 percent for active members and 60.00 percent for vested and nonvested deferred members. The revised CSA loads are now zero percent for active member liability, 15.00 percent for vested deferred member liability, and 3.00 percent for nonvested deferred member liability.
- The assumed post-retirement benefit increase rate was changed from 1.00 percent per year for all years, to 1.00 percent per year through 2044, and 2.50 percent per year thereafter.

2016 CHANGES IN ACTUARIAL ASSUMPTIONS

- The assumed post-retirement benefit increase rate was changed from 1.00 percent per year through 2035, and 2.50 percent per year thereafter, to 1.00 percent per year for all years.
- The assumed investment return was changed from 7.90 percent to 7.50 percent. The single discount rate was changed from 7.90 percent to 7.50 percent.
- Other assumptions were changed pursuant to the experience study dated June 30, 2015. The assumed future salary increases, payroll growth, and inflation were decreased by 0.25 percent to 3.25 percent for payroll growth, and 2.50 percent for inflation.

2015 CHANGES IN PLAN PROVISIONS

• On January 1, 2015, the Minneapolis Employees Retirement Fund was merged into the General Employees Retirement Fund, which increased the total pension liability by \$1.1 billion and increased the fiduciary plan net position by \$892.0 million. Upon consolidation, state and employer contributions were revised, the State's contribution of \$6.0 million, which meets the special funding situation definition, was due September 2015.

2015 CHANGES IN ACTUARIAL ASSUMPTIONS

• The assumed post-retirement benefit increase rate was changed from 1.00 percent per year through 2030, and 2.50 percent per year thereafter, to 1.00 percent per year through 2035, and 2.50 percent per year thereafter.

Notes to Required Supplementary Information (continued) June 30, 2020

TEACHERS RETIREMENT ASSOCIATION (TRA)

2018 CHANGES IN ACTUARIAL ASSUMPTIONS

- The cost of living adjustment (COLA) was reduced from 2.00 percent each January 1 to 1.00 percent, effective January 1, 2019. Beginning January 1, 2024, the COLA will increase 0.10 percent each year until reaching the ultimate rate of 1.50 percent on January 1, 2028.
- Beginning July 1, 2024, eligibility for the first COLA changes to normal retirement age (age 65 to 66, depending on date of birth). However, members who retire under Rule of 90 and members who are at least age 62 with 30 years of service credit, are exempt.
- The COLA trigger provision, which would have increased the COLA to 2.50 percent if the funded ratio was at least 90.00 percent for two consecutive years, was eliminated.
- Augmentation in the early retirement reduction factors is phased out over a five-year period beginning July 1, 2019 and ending June 30, 2024 (this reduces early retirement benefits). Members who retire and are at least age 62 with 30 years of service are exempt.
- Augmentation on deferred benefits will be reduced to zero percent beginning July 1, 2019. Interest payable on refunds to members was reduced from 4.00 percent to 3.00 percent, effective July 1, 2018. Interest due on payments and purchases from members, employers is reduced from 8.50 percent to 7.50 percent, effective July 1, 2018.
- The employer contribution rate is increased each July 1 over the next six years, (7.71 percent in 2018, 7.92 percent in 2019, 8.13 percent in 2020, 8.34 percent in 2021, 8.55 percent in 2022, and 8.75 percent in 2023). In addition, the employee contribution rate will increase from 7.50 percent to 7.75 percent on July 1, 2023. The state provides funding for the higher employer contribution rate through an adjustment in the school aid formula.
- The single discount rate changed from 5.12 percent to 7.50 percent.

- The COLA was assumed to increase from 2.00 percent annually to 2.50 percent annually on July 1, 2045.
- The COLA was not assumed to increase to 2.50 percent, but remain at 2.00 percent for all future years.
- Adjustments were made to the CSA loads. The active load was reduced from 1.40 percent to zero percent, the vested inactive load increased from 4.00 percent to 7.00 percent, and the nonvested inactive load increased from 4.00 percent to 9.00 percent.
- The investment return assumption was changed from 8.00 percent to 7.50 percent.
- The price inflation assumption was lowered from 2.75 percent to 2.50 percent.
- The payroll growth assumption was lowered from 3.50 percent to 3.00 percent.

Notes to Required Supplementary Information (continued) June 30, 2020

TEACHERS RETIREMENT ASSOCIATION (TRA) (CONTINUED)

2017 CHANGES IN ACTUARIAL ASSUMPTIONS (CONTINUED)

- The general wage growth assumption was lowered from 3.50 percent to 2.85 percent for 10 years, followed by 3.25 percent thereafter.
- The salary increase assumption was adjusted to reflect the changes in the general wage growth assumption.
- The single discount rate changed from 4.66 percent to 5.12 percent.

2016 CHANGES IN ACTUARIAL ASSUMPTIONS

• The single discount rate was changed from 8.00 percent to 4.66 percent.

2015 CHANGES IN PLAN PROVISIONS

• The Duluth Teachers Retirement Fund Association was merged into the TRA on June 30, 2015.

- The annual COLA for the June 30, 2015 valuation assumed 2.00 percent. The prior year valuation used 2.00 percent, with an increase to 2.50 percent commencing in 2034.
- The discount rate used to measure the total pension liability was 8.00 percent. This is a decrease from the discount rate at the prior measurement date of 8.25 percent.

Notes to Required Supplementary Information (continued) June 30, 2020

PENSION BENEFITS PLAN

2019 CHANGES IN ACTUARIAL ASSUMPTIONS

• The discount rate was changed from 3.50 percent to 3.10 percent.

2018 CHANGES IN ACTUARIAL ASSUMPTIONS

- The mortality tables were updated from the RP-2014 White Collar Mortality Tables with MP-2015 Generational Improvement Scale to the RP-2014 White Collar Mortality Tables with MP-2017 Generational Improvement Scale.
- The discount rate was changed from 3.40 percent to 3.50 percent.

2017 CHANGES IN ACTUARIAL ASSUMPTIONS

• The discount rate was changed from 2.90 percent to 3.40 percent.

- The mortality table was updated from RP-2000 projected to 2014 with Scale BB to the RP-2014 White Collar Mortality Tables with MP-2015 Generational Improvement Scale.
- The withdrawal table for all employees and the retirement table for only employees eligible to retire with Rule of 90 also were updated.
- The discount rate was changed from 4.00 percent to 2.90 percent.

Notes to Required Supplementary Information (continued) June 30, 2020

OTHER POST-EMPLOYMENT BENEFITS PLAN

2019 CHANGES IN ACTUARIAL ASSUMPTIONS

• The discount rate changed from 3.50 percent to 3.10 percent.

2018 CHANGES IN ACTUARIAL ASSUMPTIONS

- The mortality tables were updated from the RP-2014 White Collar Mortality Tables with MP-2015 Generational Improvement Scale to the RP-2014 White Collar Mortality Tables with MP-2017 Generational Improvement Scale.
- Healthcare trend rates were changed to better anticipate short-term and long-term medical increases.
- The discount rate was changed from 3.40 percent to 3.50 percent.

2018 CHANGES IN PLAN PROVISIONS

- The eligibility for the Director of Community Education was changed from age 57 with 15 years of service, to age 55 with 10 years of service.
- The new Director and Assistant Director of Food Service are eligible for OPEB subsidies, which are the same as other eligible directors.

2017 CHANGES IN ACTUARIAL ASSUMPTIONS AND METHODS

- The discount rate was changed from 5.00 percent to 3.40 percent.
- The actuarial cost method was changed from projected unit credit to entry-age as prescribed by GASB Statement No.75.

INTERNAL SERVICE FUNDS

The statements that follow are to provide further detail and support additional analysis for the District's internal service funds.

Internal service funds are used to account for the financing of goods or services provided by one department or agency of a government to other departments or agencies on a cost reimbursement basis. The District maintains two internal service funds, which are used to account for the District's liabilities for severance benefits, single-employer pension plan benefits, and single-employer other post-employment benefits (OPEB) plan benefits; along with District resources accumulated to pay them.

Internal Service Funds Combining Statement of Net Position as of June 30, 2020 (With Comparative Totals as of June 30, 2019)

SECTION III

STATISTICAL SECTION

(UNAUDITED)

STATISTICAL SECTION (UNAUDITED)

This section of Independent School District No. 199, Inver Grove Heights, Minnesota's (the District) Comprehensive Annual Financial Report (CAFR) presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the District's overall financial health.

Contents:

	Page
Financial Trends	87
These schedules contain trend information to help the reader understand how the District's financial performance and well-being have changed over time.	
Revenue Capacity	97
These schedules contain information to help the reader assess the District's most significant local revenue source, property taxes.	
Debt Capacity	103
These schedules present information to help the reader assess the affordability of the District's current levels of outstanding debt and the District's ability to issue additional debt in the future.	
Demographic and Economic Information	109
These schedules offer demographic and economic indicators to help the reader understand the environment within which the District's financial activities take place.	
Operating Indicators	113
TTL	

These schedules contain service and infrastructure data to help the reader understand how the information in the District's financial report relates to the services the District provides, and the activities it performs.

Sources: Unless otherwise noted, the information in these schedules is derived from the District's CAFR for the relevant year.

Net Position by Component Last Ten Fiscal Years (Accrual Basis of Accounting)

				Fiscal Year
	2011	2012	2013	2014
Governmental activities

Note 1: Tax rates are per one dollar of tax capacity.

- Note 2: The tax capacity rate applied to an individual property is the sum of the applicable school district, city, county, and other taxing entity tax rates. The majority of the District is in the City of Inver Grove Heights, which is the rate used above. The "other" taxing entities include: Metropolitan Council, Metropolitan Mosquito Control District, and Metropolitan Transit.
- Note 3: District rates do not include the referendum, which is spread on the District's referendum market value.
