Welcome to Our Elementary Schools!

The elementary student handbook provides general information covering many areas important to your child and his or her education in the Inver Grove Heights School District.

We want to help our community, especially parents and guardians, stay informed about our elementary school's various functions and programs. We encourage you to visit school and confer with your child's teacher and principal. We can achieve our goal of maximum growth for our students through a partnership between home and school.

If you have ideas to improve our schools for the children of the district, our doors are always open.

General Information

Absentee Notification

If your child will not be in school, please call the attendance line before 9:00 AM, stating the reason for the absence. You may leave a message on the voicemail at any time. Telephone numbers are listed on the inside cover of this book. If a child is absent and a call has not been received, the elementary school will contact the parent/guardian. If there has been no contact between parent/guardian and school personnel, the absence will be considered unexcused.

Arrivals

****Children who walk to school or are dropped off by a parent are requested to arrive at school no earlier than 7:35 AM.***

Problems arise on the school grounds when children arrive at school too early. Children become restless when they have nothing to do for long periods of time.

If a teacher has requested that your child come early, he or she will be admitted to the classroom.

Bicycles, Skateboards, Scooters, Inline Skates, & Snowboards

Children may ride bicycles to school, provided they follow established safety procedures set up in each school. The same traffic regulations apply to bicycles as automobiles. It is very important that your child knows and follows these regulations. In fact, his or her life may depend on it. We ask that children purchase bicycle locks and use them. The school is not responsible for any loss due to riding bicycles to school.

Skateboards, snowboards, scooters, in-line skates (rollerblades) and shoes with wheels are not allowed on the school grounds or in school.

Building Security

All students have the right to be safe and secure at all times when they are at school. To ensure safety, these procedures have been established. All visitors, including parents/guardians, must report to the school office. All parents, guardians, volunteers, and visitors must sign in on a visitor sheet and wear a visitor pass while in the school. When they leave the building, they should sign out and return the pass to the office. Children will not be released to neighbors, friends, or relatives of the child unless that person's name is given to the office by the parent. All staff will be identified by "staff" identification badges. A driver's license or other form of legal identification will be required.

Cafeteria Guidelines

- We all look forward to the lunch period as one of pleasure, relaxation, and an opportunity to chat with friends. Since so many students eat at the same time, the following guidelines have been established to ensure a pleasant atmosphere:
- Follow directions given by the lunch-duty supervisor(s).

- Canned carbonated beverages, like pop, are not allowed in the cafeteria.
- After eating, clean your area and return your tray to the proper place.
- No glass containers.
- Use quiet voices.

Custody Issues

Often in family situations, a court has given one parent/guardian or another certain legal rights. These rights most often delineate custody issues for minor children involved in the family situation.

When a court awards sole legal custody, sole physical custody, or creates other specific language that requires the school to limit normal family involvement, the school must have appropriate copies of the court papers. ***Without such information, the school will assume joint legal custody and joint physical custody.***

Early Dismissal by Parent/Guardian

If a child has a dental or doctor appointment during the school day, we ask that the office be informed by note or phone call from the legal guardian prior to the appointment. For all medical appointments, please obtain a note from the doctor and turn it in to the front office so that the appointment can be excused. Not having a doctor note may qualify as an unexcused absence based upon history and/or circumstances. If a child is not going home as usual (i.e. is visiting a friend's house) or a different adult is picking up the student, we need a written note or a phone call needs to be made to the school's front office from the legal parent/guardian. Students will not be checked out of the classroom after 2:15 PM (the last 15 minutes of the school day) because this is disruptive to the classroom. A form of legal identification (such as a driver's license) is needed to check students out of school.

Educational Benefits

Families who apply and qualify for Educational Benefits receive deals on school device protection plans, school activity fees, school event admission like prom, internet services, local memberships, and more! Plus, every qualifying Educational Benefits Application provides about \$1,500 to your child's school for student support services. To learn more and apply, visit www.isd199.org/edu-benefits.

Emergency Information

Each year, we ask parents/guardians to provide emergency information if we must contact someone in an emergency or illness. Information is kept in Infinite Campus, our school district's student information system, and it is not used for any other purposes.

At the beginning of each school year, parent/guardians will complete the Student Information Update through Infinite Campus in the Parent Portal. Parents/guardians will check their emergency information as part of the update. They

can update any incorrect information or fill in any missing information during this process. Please make sure the phone numbers you provide will allow us to reach a person, not an answering machine, in case of emergency.

Watch for information from your school about the Student Information Update in August. Please log into the Infinite Campus in the Parent Portal as needed to update information.

FastBridge Assessments

In Inver Grove Heights Schools, we strive to continually improve teaching and learning. To help us do so, we use the benchmarking system FastBridge, developed by researchers at leading universities, including the University of Minnesota.

FastBridge provides teachers and administrators with better data to measure and address whole student development. It is aimed at improving student learning in math, reading, and social-emotional behavior. Although it allows teachers to frequently assess a student's academic performance, assessments are kept as brief as possible to maximize instructional time.

FastBridge's progress monitoring provides teachers with recommendations for grouping students, adjusting whole group instruction, and delivering small-group learning strategies. The FastBridge system also provides accessible professional development tools for teachers depending on their needs.

Health Program Procedures

School health services join the efforts of parents/guardians and community to protect and maintain the health of school-aged children. Facilities are provided in each school for first aid and the immediate care of a child who is ill. Parents'/guardians' telephone numbers or alternate numbers are called if the student should not remain in school. ***Please inform the school if phone numbers change during the year or update your information in Infinite Campus.***

Students may not be in school with:

1. Communicable diseases.
2. Temperature over 100° orally should not return to school until they have been fever-free for 24 hours.
3. Red or draining eyes (if severe and possibly infectious — call your doctor).
4. Draining skin lesions not under a doctor's care (sores about nose, mouth, or other exposed area).
5. Vomiting, diarrhea, or severe abdominal pain.
6. Persistent cough.
7. Injury that needs medical care.

A child should remain out of school until his or her temperature has been below 100° for 24 hours ***without medication*** (such as Tylenol). An elevated temperature indicates that the child's body is working to eliminate the reason for the elevated temperature; the child may still be contagious to other children. If you have been to your physician or clinic for a strep test, please ask when the child

may return to school. A child should be on medication (oral antibiotics or eye drops for eye infection) for 24 hours before returning to school.

When a student is ill or injured, health office personnel will:

1. Call the parent or guardian as listed on the emergency card and ask him or her to arrange transportation and care for the student.
2. If a parent or guardian is not available, the alternate person(s) designated on the emergency card will be called to provide transportation and care for the student until the parent can be contacted.
3. No student will be allowed to walk home or be taken home without the permission of an adult who is responsible for the student.
4. If an injury or illness requires any restrictions or adaptations at school, please have the physician write instructions to be followed at school. This includes physical education excuses and restrictions.

In an extreme emergency, an ambulance will be called and your child will be taken to the nearest hospital. (This will be billed to the parent or guardian).

Vision and hearing screening programs are provided in school for students in grades 1, 3, and 5. Physicals from the doctor are requested before kindergarten. Students are encouraged to see their dentist at least once a year.

To go to school in Minnesota, students must show they've had these immunizations*: MMR (measles, mumps, rubella), DTP (diphtheria, tetanus, pertussis), polio, Hib (Haemophilus influenza type b), varicella (chicken pox) and Hepatitis B. All students must have shots prior to the first day of school.*

*Parents/guardians may file a medical exemption signed by a health care provider or a conscientious objection signed by the parent or guardian and notarized.

An Early Childhood Screening is also required by state law before a child enters kindergarten. To make an appointment or learn more about early childhood screenings, please call 651-306-7520 or visit www.IGHEarlyLearning.org.

Lost & Found

Children lose many pieces of clothing and other personal belongings, particularly during the winter months. ***Please label all of your children's clothing if possible.*** Coats, mittens, boots, and scarves seem to be the articles lost in great amounts. By marking or labeling articles, loss of clothing could be eliminated. Items not claimed will be donated to a charitable organization two times per year.

Minnesota Comprehensive Assessments (MCAs)

The 1997 statewide testing law called for the creation of a comprehensive assessment system and the use of statewide tests. These tests are part of the educational accountability system in Minnesota. Accountability calls for a results-oriented education system that focuses on

continuous improvement, community involvement and public reporting of results. These tests chart the progress of schools and districts over time, generate information for school improvement and school accountability and allow for comparison of schools and districts in Minnesota. Schools use these results to make curricular and instructional decisions for all students. Identifying strengths and weaknesses early can help districts make the best decisions about curriculum and instruction so that they are better able to prepare students to meet the Graduation Standards.

All public school 3rd-, 4th- and 5th-graders take a reading test and a mathematics test. Students in grade five also take a science test. Only a student's IEP or 504 team may determine whether a student should take an alternate assessment. That decision must be part of the IEP or 504 plan. All LEP students take the MCA-III in math and reading. All LEP students take the ACCESS Test.

Parent/Teacher Conferences

The elementary schools will have parent/teacher conferences two times a year. We believe it is important to partner with parents/guardians

Since the family system is the first learning system and remains the primary determinant in the student's attitude and behavior, a home-school partnership is a natural and essential element in building and maintaining a positive learning environment for all students.

The opportunity for open communication is an important ingredient of meaningful home-school relationships. Two-way communication is essential, and one opportunity for such communication is during parent/teacher conferences, which are held in October and February.

Parent Portal

The ISD 199 Parent Portal, portal.isd199.org, gives parents/guardians access to their student's information, including report cards, attendance, and class lists.

If you have not set up your account yet, please contact your school's office. Please visit www.isd199.org/parents/campus for more information about the Parent Portal and Infinite Campus.

Personal Property

ISD 199 is not liable for any personal property that is lost, stolen, or damaged. We cannot guarantee the safety of electronic devices such as tablets or cellphones. It is recommended that students leave valuable personal items at home. Those who choose to bring personal items to school do so at their own risk.

Safety Drills for Fire, Severe Weather, Evacuation, & Lockdown

Drills are conducted every school year. They are practiced during various times of the year. The purpose is to give careful instructions regarding the procedure for leaving the building, or for moving to an area of safety in an orderly

fashion, not only during fire emergencies, but any other emergency that may arise.

During October (Fire Prevention Week), our local fire department conducts demonstrations and educational programs in all of our schools. During April (Severe Weather Awareness Week), we participate in the statewide tornado drill.

School Bus Regulations

The mission of the transportation department is to provide safe and responsible transportation for students to and from school and related events. A fair and consistent discipline policy is necessary to ensure safe transportation for all students and personnel. Transportation personnel are expected to treat their passengers with respect, to communicate clearly and concisely all rules and safety guidelines approved by the School Board of District 199, and to be consistent in the performance of their daily schedules. Passengers are expected to respect the rights of others and follow all rules and safety guidelines approved by the School Board of District 199. Parents/guardians are reminded that transportation by school bus is a privilege, not a right.

Children who need transportation to or from school must complete a Bus Registration form at www.isd199.org/busing. Families must register for transportation when they enroll and every summer before continuing in ISD 199.

If a child needs to ride a bus other than their assigned bus, their parent or guardian must turn in a note to the front office of their child's school. The school will work with the Transportation Department to determine if the student is able to ride the requested bus. The note must be given to the driver when the student boards the bus. If you have any concerns about the schedule, please call the Safe-Way Bus Company at 651-451-1375 or ISD 199 Transportation Coordinator Jeff Wendel at 651-306-7095.

Bus Safety Guidelines

1. Follow the direction of the bus driver.
2. Stay out of the danger zones outside of the bus.
3. Remain seated in your own seat.
4. Keep your hands, feet and all objects to yourself.
5. No fighting, loud behavior or inappropriate language.
6. Do not eat or drink on the bus.
7. Do not possess/use prohibited chemicals.
8. Do not bring any weapons or dangerous objects on the bus.
9. Do not damage the bus.

Bus Discipline Guidelines

1. Verbal warning, seat re-assignment.
2. First referral: Conduct report issued, parent/guardian notified, possible detention.
3. Second referral: Conduct report issued, parent/guardian notified, possible detention and/or one to five (1-5) day suspension from bus.

4. Third referral: Conduct report issued, parent/guardian notified, possible suspension of riding privileges for up to a full school year. A conference may be scheduled with parents, administrative representative, and transportation representative. The following are examples of serious behaviors that may result in an automatic suspension of riding privileges for the full school year:

- a. Use of tobacco, alcohol, illegal drugs; fighting or spitting.
- b. Threats, harm, or harassment of any person(s) on the school bus.
- c. Possession or use of any dangerous objects (knives, guns, lighters, etc.).
- d. Vandalism to bus.
- e. Defying the bus driver.
- f. Unauthorized exit from any emergency exit.
- g. Throwing articles in and out of the school bus.

School Closing

Occasionally, school must be canceled because of inclement weather. When school is closed due to temperatures, dangerous wind chill, or snow and hazardous road conditions, every attempt will be made to make and communicate the decision by 5:45 AM the morning of the cancellation.

Any time there is a school closure or delay, the district will place an outbound call to families. Additionally, families can find information about school closures and delays via:

- District website: www.isd199.org
- District information hotline: 651-306-7875
- District social media accounts: www.facebook.com/isd199 & www.twitter.com/isd199
- Local radio and TV news affiliates, including WCCO Radio – 830 AM, WCCO Channel 4, KSTP Channel 5 and 45, KMSP Channel 9, and KARE Channel 11

Visit www.isd199.org/parents/emergency_closings for full closing procedures.

Every family should have an emergency school closing plan that their child(ren) know. Parents must make arrangements for students in the event that they (parents) are not home. Also, carefully review your emergency contact information in Infinite Campus to ensure that all information is complete and current in case of a school closure or delay.

School Lunch and Breakfast Programs

All children are treated the same regardless of ability to pay. In the operation of child feeding programs, no child will be discriminated against based on race, sex, color, or national origin. All children can participate in the school breakfast and/or lunch program.

Students eating school breakfast and lunch will be offered meat/meat alternates, grains, fruits, vegetables, and milk daily. Visit www.schoolcafe.com/InverGroveHeights to see

menus for each school.

Student Transfers

If you are planning to move from our community, please notify us at least one week before you leave.

A folder which contains your child's records will be sent to the new school district upon request by that school district.

Technology

All students, kindergarten through 5th grade, will be issued an iPad at the beginning of the school year. All families are required to sign the "Elementary Engage 199 Digital Tools Agreement" in order for their student(s) to be issued a school iPad and district accounts. Schools will provide families information about the agreement when their students are issued their iPad.

Tennis Shoes

All children must have tennis shoes when engaged in any activity in school gymnasiums. Our weather can cause children to be involved in physical activities in our gyms at any time during the year. Tennis shoes for gym purposes are for safety and more effective participation.

Treats

We would like to celebrate birthdays, but if you send a treat (i.e. on your child's birthday), the food must come from a commercial supplier and be individually wrapped. We encourage healthy snacks or a book or game to donate to the classroom. No home-baked goods are allowed due to state Health/Safety laws.

Volunteer Programs

The educational program in Inver Grove Heights has been immensely enriched by the time and talent donated each year by hundreds of volunteers. There are many programs that add great value to the scope of education which are dependent upon volunteers for their success. These programs can involve a commitment of time from a few hours to an entire day. Other programs involve a regular commitment of time each week.

If you are interested in volunteering, please visit www.isd199.org/community/give to find Volunteer Corps information and more.

Attention Volunteers:

Protection and Privacy of Pupil Records (Policy 515)

Every school district is required by state and federal law to have a policy protecting the privacy rights of students and families. School volunteers have the same responsibility to maintain the privacy of student and family information as the district's regular employees. Violating the district's privacy rights policy is a serious matter and may result in removal from the volunteer service; it may also be a civil liability. The law and District's privacy rights state that any information that identifies a student or family is private and cannot be released without the written consent of the parent/guardian.

The only exception to this is when the information is shared with other school personnel because there is an “educational need to know.”

The “educational need to know” exists when obtaining or disseminating information about a student or his or her family is necessary to effectively carry out the teaching and learning function with the student. This may include researching and dissemination information from the child’s educational records; or information gleaned from parents or other professionals and paras who work(ed) with the child. The “educational need to know” is breached and the individual is liable when the information is obtained or disseminated to those who do not have the “educational need to know,” such as faculty in general, other parents, friends, etc. The district takes this policy very seriously and expects all employees, substitute teachers and volunteers to strictly adhere to it as a condition of their work within our schools.

Mandated Reporting of Child Neglect, Physical or Sexual Abuse (Policy 414)

It shall be a violation of policy for any school personnel to fail to immediately report instances of child neglect, or physical or sexual abuse when school personnel knows or has reason to believe a child is being neglected or physically or sexually abused or has been neglected or physically or sexually abused within the preceding three years. Full policies are available on the district website and at the district office.

Policies

Besides the policies that are included and/or referred to in this handbook, students are expected to be aware of and to abide by all of the district’s policies. All of the policies can be found at www.isd199.org/district/board/policies on the district website.

Students should pay particular attention to the policies in Section 500, which specifically pertains to students. Questions regarding policies can be directed to your building administrator.

Employment & Services Criminal History Background Checks Notice to Parents

The school district has adopted a policy, the purpose of which is to promote the physical, social, and psychological well-being of its students. Pursuant to this policy, the school district shall seek criminal history background checks for all applicants who receive an offer of employment with the school district. The school district also shall seek criminal history background checks for all individuals, except enrolled student volunteers, who are offered the opportunity to provide athletic coaching services or other extracurricular academic coaching services to the school district, regardless of whether compensation is paid. These positions include, but are not limited to, all athletic coaches, extracurricular academic coaches, assistants, and advisors. The school district may elect to seek criminal history background checks for other volunteers, independent contractors, and student employees.

Policy 102 - Equal Educational Opportunity (3-11-19)

It is the school district’s policy to provide equal educational opportunity for all students. The school district does not unlawfully discriminate on the basis of race, color, creed, religion, national origin, sex, marital status, parental status, status with regard to public assistance, disability, sexual orientation, including gender identity and expression, or age. The school district also makes reasonable accommodations for students with disabilities. Students with disabilities are entitled to a free appropriate public education that includes general education, special education, and/or related aids and services.

The school district prohibits the harassment of any individual for any of the categories listed above. For information about the types of conduct that constitute violation of the school district’s policy on harassment and violence and the school district’s procedures for addressing such complaints, refer to the school district’s policy on harassment and violence.

This policy applies to all areas of education including academics, coursework, cocurricular and extracurricular activities, community education programs, or other rights or privileges of enrollment.

Every school district employee shall be responsible for complying with this policy conscientiously. For the purposes of this policy, “employee” includes employed staff, a volunteer, an independent contractor, a member of an advisory board, and any other individual acting on behalf of the school district.

Any person having any questions regarding this policy should discuss it with the appropriate school district official as provided by policy. In the absence of a specific designee, an inquiry or a complaint should be referred to the district Section 504 Coordinator.

Policy 413 - Harassment & Violence (3-14-22)

The purpose of this policy is to maintain an education and work environment free from harassment and violence on the basis of race, color, creed, religion, national origin, sex, age, marital status, familial status, status with regard to public assistance, sexual orientation, or disability (Protected Class).

General Statement of Policy

The policy of the school district is to maintain a learning and working environment free from harassment and violence on the basis of Protected Class. The school district prohibits any form of harassment or violence on the basis of Protected Class.

A violation of this policy occurs when any student, teacher, administrator or other school personnel of the school district harasses a student, teacher, administrator or other school personnel or group of students, teachers, administrators, or other school personnel through conduct or communication based on a person’s Protected Class as defined by this policy. (For purposes of this policy, school personnel includes school board members, school employees, agents, volunteers,

contractors or persons subject to the supervision and control of the district.)

A violation of this policy occurs when any student, teacher, administrator, or other school personnel of the school district inflicts, threatens to inflict, or attempts to inflict violence upon any student, teacher, administrator or other school personnel or group of students, teachers, administrators, or other school personnel based on a person's Protected Class.

The school district will act to investigate all complaints, either formal or informal, verbal or written, of harassment or violence based on a person's Protected Class, and to discipline or take appropriate action against any student, teacher, administrator or other school personnel who is found to have violated this policy.

It is the responsibility of every school district employee and student to comply with this policy.

District Reporting

Any person who believes they have been the victim of harassment or violence on the basis of Protected Class by a student, teacher, administrator or other school personnel of the school district, or any person with knowledge or belief of conduct which may constitute harassment or violence prohibited by this toward a student, teacher, administrator or other school personnel or group of students, teachers, administrators, or other school district officials designated by this policy.

A person may report conduct that may constitute harassment or violence anonymously. However, the school district may not rely solely on an anonymous report to determine discipline or other remedial responses.

The school district encourages the reporting party or complainant to use the grievance procedure and form available in the appendices of this policy. Oral reports shall be considered complaints as well. Nothing in this policy shall prevent any person from reporting harassment or violence directly to a school district human rights officer or to the superintendent.

- The Superintendent hereby designates the Director of Human Resources, Michele Carroll, 2990 80th Street East, Inver Grove Heights, Minnesota, 651-306-7805, CarrollM@isd199.org, as its human rights officer. The human rights officer is to receive reports or complaints of harassment or violence prohibited by this policy. If the complaint involves a human rights officer, the complaint shall be filed directly with the superintendent.
- The school district shall conspicuously post the name of the human rights officer(s), including mailing addresses and telephone numbers.
- Submission of a good faith complaint or report of harassment or violence prohibited by this policy will not affect the complainant or reporter's future employment, grades, or work assignments.
- False accusations or reports of harassment or violence against another person are prohibited.

- A person who engages in an act of violence or harassment, reprisal, retaliation, or false reporting of violence or harassment, or permits, condones, or tolerates violence or harassment shall be subject to discipline or other remedial responses for that act in accordance with the school district's policies and procedures.
- A person who engages in an act of violence or harassment, reprisal, retaliation, or false reporting of violence or harassment, or permits, condones, or tolerates violence or harassment shall be subject to discipline or other remedial responses for that act in accordance with the school district's policies and procedures.
- Consequences for students who commit, or are a party to, prohibited acts of violence or harassment or who engage in reprisal or intentional false reporting may range from remedial responses or positive behavioral interventions up to and including suspension and/or expulsion.
- Consequences for employees who permit, condone, or tolerate violence or harassment or engage in an act of reprisal or intentional false reporting of violence or harassment may result in disciplinary action up to and including termination or discharge.
- Use of formal reporting forms is not mandatory.
- The school district's grievance procedure and form for complaints of discrimination, harassment, violence and other offensive behavior can be found in Appendix I and Appendix II of Policy 413. Harassment and violence definitions can be found in Appendix III.

School Building Reporting

The building principal, the principal's designee, or the building supervisor (hereinafter the building report taker) is the person responsible for receiving oral or written reports of harassment or violence prohibited by this policy at the building level.

Any adult school district personnel who receives a report of harassment or violence prohibited by this policy shall inform the building report taker immediately. If the complaint involves the building report taker, the complaint shall be made or filed directly with the superintendent or the school district human rights officer by the reporting party or complainant. School district personnel who fail to inform the building report taker of a report of harassment or violence in a timely manner may be subject to disciplinary action.

1. The building report taker shall ensure that this policy and its procedures, practices, consequences, and sanctions are fairly and fully implemented and shall serve as a primary contact on policy and procedural matters.
2. A teacher, school administrator, volunteer, contractor, or other school employee shall be particularly alert to possible situations, circumstances, or events that might include acts of harassment or violence. Any such person who witnesses, observes, receives a report of, or has other knowledge or belief of conduct

that may constitute harassment or violence shall make reasonable efforts to address and resolve the harassment or violence and shall inform the building report taker immediately. School district personnel who fail to inform the building report taker of conduct that may constitute harassment or violence or who fail to make reasonable efforts to address and resolve the harassment or violence in a timely manner may be subject to disciplinary action.

3. Upon receipt of a report, the building report taker must notify the school district human rights officer immediately, without screening or investigating the report. The building report taker may request, but may not insist upon a written complaint. A written statement of the facts alleged will be forwarded as soon as practicable by the building report taker to the human rights officer. If the report was given verbally, the building report taker shall personally reduce it to written form within 24 hours and forward it to the human rights officer. Failure to forward any harassment or violence report or complaint as provided herein may result in disciplinary action against the building report taker.

Basic Requirements for Grievance Process

Equitable Treatment

The school district shall treat complainants and respondents equitably. However, equality or parity with respect to supportive measures provided to complainants and respondents is not required.

The school district will not impose any disciplinary sanctions or take any other actions against a respondent that do not constitute supportive measures until it has completed this grievance process and the respondent has been found responsible.

The school district will provide appropriate remedies to the complainant any time a respondent is found responsible.

Objective and Unbiased Evaluation of Complaints

If there is a conflict of interest with respect to any party affected by this policy, appropriate action shall be taken such as, but not limited to, appointing or contracting with a neutral third party investigator to conduct the investigation or recusal from the process the person for whom a conflict or potential conflict of interest exists.

Throughout the grievance process, the human rights officer will objectively evaluate all relevant evidence, inculpatory and exculpatory, and shall avoid credibility determinations based solely on a person's status as a complainant, respondent, or witness.

The human rights officer will presume that the respondent is not responsible for the alleged conduct until a determination regarding responsibility is made at the conclusion of the grievance process.

Confidentiality

The school district will keep confidential the identity of any individual who has made a report or complaint of harassment and violence, including any individual who has made a report or filed a formal complaint of harassment and violence, any complainant, any individual who has been reported to be the perpetrator of sex discrimination, any respondent, and any witness, except as may be permitted by the Family Educational Rights and Privacy Act (FERPA), 20 U.S.C. § 1232g, or FERPA's regulations, and State law under Minn. Stat. § 13.32 34 C.F.R. Part 99, or as required by law, or to carry out the purposes of 34 C.F.R. Part 106, including the conduct of any investigation, hearing, or judicial proceeding arising thereunder (i.e., the school district's obligation to maintain confidentiality shall not impair or

otherwise affect the complainants and respondents receipt of the information to which they are entitled with respect to the investigative record and determination of responsibility).

Right to an Advisor; Right to a Support Person

Complainants and respondents have the right, at their own expense, to be assisted by an advisor of their choice during all stages of any grievance proceeding, including all meetings and investigative interviews. The advisor may be, but is not required to be, an attorney. In general, an advisor is not permitted to speak for or on behalf of a complainant or respondent, appear in lieu of complainant or respondent, participate as a witness, or participate directly in any other manner during any phase of the grievance process.

A complainant or respondent with a disability may be assisted by a support person throughout the grievance process, including all meetings and investigative interviews, if such accommodation is necessary. A support person may be a friend, family member, or any individual who is not otherwise a potential witness. The support person is not permitted to speak for or on behalf of a complainant or respondent, appear in lieu of complainant or respondent, participate as a witness, or participate directly in any other manner during any phase of the grievance process.

Notice

The school district will send written notice of any investigative interviews or meetings to any party whose participation is invited or expected. The written notice will include the date, time, location, participants, and purpose of the meeting or interview, and will be provided to allow sufficient time for the party to prepare to participate.

Consolidation

The school district may, in its discretion, consolidate formal complaints as to allegations of sexual harassment against more than one respondent, or by more than one complainant against one or more respondents, or by one party against the other party, where the allegations of harassment and violence arise out of the same facts or circumstances.

Evidence

During the grievance process, the school district will not require, allow, rely upon, or otherwise use questions or evidence that constitute or seek disclosure of information

protected under a legally recognized privilege, unless the person holding such privilege has waived the privilege.

The school district shall not access, consider, disclose, or otherwise use a party's medical, psychological, and similar treatment records unless the school district obtains the party's voluntary, written consent.

Burden of Proof

The burden of gathering evidence and the burden of proof shall remain upon the school district and not upon the parties.

The grievance process shall use a preponderance of the evidence standard (i.e. whether it is more likely than not that the respondent engaged in sexual harassment) for all formal complaints of harassment and violence, including when school district employees are respondents.

Reporting a Grievance

Further information on reporting a grievance can be found in the district's grievance procedures and grievance process contained in Appendix I and Appendix II of Policy 413, including how to report or file a complaint of harassment and violence, how to report or file a formal complaint of harassment and violence, and how the school district will respond.

Harassment or Violence as Abuse

- Under certain circumstances, alleged harassment or violence may also be possible abuse under Minnesota law. If so, the duties of mandatory reporting under Minnesota Statutes, Chapter 260E may be applicable.
- Nothing in this policy will prohibit the school district from taking immediate action to protect victims of alleged harassment, violence, or abuse.

Dissemination of Policy and Training

- This policy shall be made available to all students, employees, parents and/or guardians of students, and employee unions.
- The school district shall review this policy and the school district's operation for compliance with state and federal laws prohibiting harassment and violence on a continuous basis.
- The school district shall conspicuously post the name of the human rights officer, including office address, telephone number, and work email address on its website and in each handbook that it makes available to parents, employees, students, unions, or applicants.
- This policy shall be conspicuously posted throughout each school building in areas accessible to students and employees.
- This policy shall be given to each school district employee and independent contractor at the time of entering into the person's employment contract.
- This policy shall appear in the student handbook.
- The school district shall develop a method of discussing this policy with students and employees.

- The school district may implement violence prevention and character development education programs to prevent and reduce policy violations. Such programs may offer instruction on character education including, but not limited to, character qualities such as respect for others, value of leadership guidance, attentiveness, truthfulness, diligence, gratefulness, self-discipline, patience, forgiveness, peacemaking, resourcefulness, and/or sexual abuse prevention.

Recordkeeping

The school district must create, and maintain for a period of seven calendar years, records of any actions, including any supportive measures, taken in response to a report or formal complaint of harassment and violence.

Policy 501 - School Weapons Policy (3-11-19)

The purpose of this policy is to assure a safe school environment for students, staff and the public. No student or non-student, including adults and visitors, shall possess, use or distribute a weapon when in a school location except as provided in this policy.

No student or non-student, including adults and visitors, shall possess, use or distribute a weapon when in a school location except as provided in this policy. The school district will act to enforce this policy and take appropriate action with any student, teacher, administrator, school employee, volunteer, or member of the public who violates this policy.

Exceptions (relating to students; see complete policy for exceptions relating to non-students)

A student who finds a weapon on the way to school or in a school location, or a student who discovers that he or she accidentally has a weapon in his or her possession, and takes the weapon immediately to the principal's office shall not be considered to possess a weapon. If it would be impractical or dangerous to take the weapon to the principal's office, a student shall not be considered to possess a weapon if he or she immediately turns the weapon over to an administrator, teacher or head coach or immediately notifies an administrator, teacher or head coach of the weapon's location.

Consequences for Weapon Possession/Use/Distribution

Administrative Discretion

While the school district does not allow the possession, use or distribution of weapons by students, the superintendent may use discretion in determining whether, under the circumstances, a course of action other than those consequences specified above is warranted. If so, other appropriate action may be taken, including consideration of a recommendation for lesser discipline.

Pursuant to Minnesota law, a student who brings a firearm, as defined by federal law, to school will be expelled for at least one year. The school board may modify this requirement on a case-by-case basis.

The school district does not allow the possession, use or

distribution of weapons by students. Consequently, the minimum consequence for students possessing, using or distributing weapons shall include:

1. confiscation of the weapon; and
2. parent or guardian notification.

Consequence for students possessing, using or distributing weapons may include:

1. suspension, exclusion or expulsion;
2. immediate policy notification; or
3. recommendation to the superintendent of dismissal for a period of time not to exceed one year.

Policy 502 - Search of Student Lockers, Desks, Personal Possessions & Student's Person (4-26-21)

The purpose of this policy is to provide for a safe and healthful educational environment by enforcing the school district's policies against contraband.

Lockers and Personal Possessions Within a Locker

Pursuant to Minnesota statutes, school lockers are the property of the school district. At no time does the school district relinquish its exclusive control of

lockers provided for the convenience of students. Inspection of the interior of lockers may be conducted by school officials for any reason at any time, without notice, without student consent, and without a search warrant. The personal possessions of students within a school locker may be searched only when school officials have a reasonable suspicion that the search will uncover evidence of a violation of law or school rules. As soon as practicable after the search of a student's personal possessions, the school officials must provide notice of the search to students whose lockers were searched unless disclosure would impede an ongoing investigation by police or school officials.

Desks

School desks are the property of the school district. At no time does the school district relinquish its exclusive control of desks provided for the convenience of students. Inspection of the interior of desks may be conducted by school officials for any reason at any time, without notice, without student consent, and without a search warrant.

Personal Possessions and Student's Person

The personal possessions of students and/or a student's person may be searched when school officials have a reasonable suspicion that the search will uncover a violation of law or school rules. The search will be reasonable in its scope and intrusiveness.

A violation of this policy occurs when students use lockers

and desks for unauthorized purposes or to store contraband. A violation occurs when students carry contraband on their person or in their personal possessions.

Definitions

Contraband means any unauthorized item possession prohibited by school district policy and/or law. It includes but is not limited to weapons and "lookalikes," alcoholic beverages, controlled substances and "look-alikes," district-owned materials, and stolen property.

Personal possessions includes but is not limited to purses, backpacks, book bags, packages, and clothing.

Reasonable suspicion means that a school official has grounds to believe that the search will result in evidence of a violation of school district policy, rules, and/or law. Reasonable suspicion may be based on a school official's personal observation, a report from a student or staff member, a student's suspicious behavior, a student's age and past history or record of conduct both in and out of the school context, or other reliable sources of information.

Reasonable scope means that the scope and/or intrusiveness of the search is reasonably related to the objectives of the search. Factors to consider in determining what is reasonable include the seriousness of the suspected infraction, the reliability of the information, the necessity of acting without delay, the existence of exigent circumstances necessitating an immediate search and further investigation (e.g. to prevent violence, serious and immediate risk of harm or destruction of evidence), and the age of the student.

Procedures

School officials may inspect the interiors of lockers and desks for any reason at any time, without notice, without student consent, and without a search warrant.

School officials may inspect the personal possessions of student and/or a student's person based on a reasonable suspicion that the search will uncover a violation of law or school rules. A search of personal possessions of a student and/or a student's person will be reasonable in its scope and intrusiveness.

As soon as practicable after a search of personal possessions within a locker pursuant to this policy, the school officials must provide notice of the search to students whose possessions were searched unless disclosure would impede an ongoing investigation by police or school officials.

Whenever feasible, a search of a person shall be conducted in private by a school official of the same sex. A second school official of the same sex shall be present as an observer during the search of a person whenever feasible.

School officials conducting any other search shall make a reasonable effort to have a second official present as an observer.

A copy of this policy will be printed in the student handbook or disseminated in any other way which school officials deem appropriate.

Directives and Guidelines

School administration may establish reasonable directives and guidelines which address specific needs of the school district, such as use of tape in lockers, standards of cleanliness and care, posting of pin-ups and posters which may constitute sexual harassment, or the posting of items within lockers or desks that may constitute violation of district policy.

Seizure of Contraband

If a search yields contraband, school officials will seize the item and, where appropriate, turn it over to legal officials for ultimate disposition.

Violations

A student found to have violated this policy and/or the directives and guidelines implementing it shall be subject to discipline in accordance with the school district's Student Discipline Policy, which may include suspension, exclusion, or expulsion, and the student may, when appropriate, be referred to legal authorities.

Policy 503 - Student Attendance (8-22-22)

Regular school attendance is directly related to success in academic work, benefits students socially, provides opportunities for important communications between teachers and students and establishes regular habits of dependability important to the future of the student.

- It is the student's right to be in school. It is also the student's responsibility to attend all assigned classes every day that school is in session and to be aware of and follow the correct procedures when absent from an assigned class.
- It is the responsibility of the student's parent or guardian to ensure the student is attending school, to inform the school of a student's absence, and to work cooperatively with the school to solve any attendance problems that may arise. To be considered an excused absence, the student's parent or guardian should communicate with the attendance office on the day of the absence either by telephone, note, or email and provide the reason for the student's absence. Parent or guardian notification of the absence must occur within 5 days of the initial absence.
- Schools will send an automated phone call and email to parents/guardians for each unexcused absence. Five unexcused absences for an elementary school child will result in school contact with the parent/guardian for problem solving, and the absence may require medical documentation. Seven unexcused absences will result in referral to Dakota County at the elementary and secondary levels. Ten or more excused absences for an elementary school student may require medical documentation, and a meeting with administration, the classroom teacher, and the school social worker. At the middle and high school level, 10 excused absences without medical documentation will result in a letter mailed home requiring medical documentation or a

check by a school nurse. A meeting with administration may also be required.

Policy 504 - Student Dress & Appearance (8-23-21)

The purpose of this policy is to enhance the education of students by establishing expectations of dress and grooming that are related to educational goals and community standards.

It is the policy of this school district to encourage students to be dressed appropriately for school activities and in keeping with community standards. This is a joint responsibility of the student and the student's parent(s) or guardian(s).

Staff will always strive to maintain sensitivity and respect in administering this policy. Dress code violations will be discussed in a manner that minimizes student embarrassment and disruption from class.

It is not the intention of this policy to abridge the rights of students to express political, religious, philosophical, or similar opinions by wearing apparel on which such messages are stated. Such messages are acceptable as long as they are not lewd, vulgar, obscene, defamatory, profane, or do not advocate violence or harassment against others.

When, in the judgment of the administration, a student's appearance, grooming, or mode of dress interferes with or disrupts the educational process or school activities, or poses a threat to the health or safety of the student or others, the student will be directed to make modifications or will be sent home for the day. Parents or guardians will be notified.

The administration may recommend a form of dress considered appropriate for a specific event and communicate the recommendation to students and parents/guardians.

Likewise, an organized student group may recommend a form of dress for students considered appropriate for a specific event and make such recommendation to the administration for approval.

For more detailed information on Policy 504 -Student Dress and Appearance, please visit www.isd199.org/district/board and click "Policies."

Policy 505 - Distribution of Non-School - Sponsored Materials on School Premises (3-11-19)

Requests for distribution of non-school-sponsored material will be reviewed by the administration on a case-by-case basis. However, distribution of the materials listed below is always prohibited. Material is prohibited that:

1. is obscene to minors;
2. is libelous or slanderous;
3. is pervasively indecent or vulgar or contains any indecent or vulgar language or representations, with a determination made as to the appropriateness of

the material for the age level of students to which it is intended;

4. advertises or promotes any product or service not permitted to minors by law;
5. advocates violence or other illegal conduct;
6. constitutes insulting or fighting words, the very expression of which injures or harasses other people;
7. presents a clear and present likelihood that, either because of its content or the manner of distribution, it will cause a material and substantial disruption of the proper and orderly operation and discipline of the school or school activities, will cause the commission of unlawful acts or the violation of lawful school regulations.

For more detailed information on Policy 505 -Distribution of Non-School-Sponsored Materials on School Premises, please visit the district website.

Policy 506 - Student Discipline (5-16-22)

The purpose of this policy is to ensure that students are aware of and comply with the school district's expectations for student conduct. Such compliance will enhance the school district's ability to maintain discipline and ensure that there is no interference with the educational process and ensure schools are in a safe environment. The school district will take appropriate disciplinary action when students fail to adhere to the Code of Student Conduct established by this policy.

The school board recognizes that individual responsibility and mutual respect are essential components of the educational process. The school board further recognizes that the nurturance of the maturing process for each student is of primary importance and is closely linked with the balance that must be maintained between authority and self-discipline as the individual progresses from a child's dependence on authority to the more mature behavior of self-control.

All students are entitled to learn and develop in a setting which promotes respect of self, others and property. Proper positive discipline can only result from an environment which provides options and stresses student self-direction, decision-making and responsibility. Schools can function effectively only with internal discipline based on mutual understanding of rights and responsibilities. Further, it is the intention of the school board to support parent participation in addressing proper discipline.

Students must conduct themselves in an appropriate manner that maintains a climate in which learning can take place. Overall decorum affects student attitudes and influences student behavior. Proper student conduct is necessary to facilitate the education process and to create an atmosphere conducive to high student achievement.

Although this policy emphasizes the development of self-discipline, it is recognized that there are instances when it will be necessary to administer disciplinary measures. The position of the school district is that a fair and equitable district-wide student discipline policy will contribute to

the quality of the student's educational experience. This discipline policy is adopted in accordance with and subject to the Minnesota Pupil Fair Dismissal Act, Minn. Stat. §§ 121A.40 through 121A.56.

In view of the foregoing and in accordance with Minn. Stat. § 121A.55, the school board, with the participation of school district administrators, staff, students, parents and community members and such other individuals and organizations as appropriate, has developed this policy which governs student conduct and applies to all students of the school district.

Student Rights

All students have the right to an education and the right to learn.

Student Responsibilities

All students have the responsibility:

- for their behavior and for knowing and obeying all school rules, regulations policies and procedures;
- to attend school daily, except when excused, and to be on time to all classes and other school functions;
- to pursue and attempt to complete the courses of study prescribed by the state and local school authorities;

Policy 514 - Bullying Prohibition (3-8-21)

A safe and civil environment is needed for students to learn and attain high academic standards and to promote healthy human relationships. Bullying, like other violent or disruptive behavior, is conduct that interferes with a student's ability to learn and/or a teacher's ability to educate students in a safe environment. The school district cannot monitor the activities of students at all times and eliminate all incidents of bullying between students, particularly when students are not under the direct supervision of school personnel. However, to the extent such conduct affects the educational environment of the school district and the rights and welfare of its students and is within the control of the school district in its normal operations, the school district intends to prevent bullying and to take action to investigate, respond to, and to remediate and discipline for those acts of bullying which have not been successfully prevented. The purpose of this policy is to assist the school district in its goal of preventing and responding to acts of bullying, intimidation, violence, reprisal, retaliation, and other similar disruptive and detrimental behavior.

An act of bullying, by either an individual student or a group of students, is expressly prohibited on school premises, on school district property, at school functions or activities, or on school transportation. This policy applies not only to students who directly engage in an act of bullying but also to students who, by their indirect behavior, condone or support another student's act of bullying. This policy also applies to any student whose conduct at any time or in any place constitutes bullying or other prohibited conduct that interferes with or obstructs the mission or operations of the school district or the safety or welfare of the student or other students, or materially and substantially interferes with a student's educational opportunities or performance or ability to participate in school functions or activities or receive school benefits, services, or privileges. This policy also applies to an act of cyberbullying regardless of whether such act is committed on or off school district property and/or with or without the use of school district resources.

No teacher, administrator, volunteer, contractor, or other employee of the school district shall permit, condone, or tolerate bullying.

Apparent permission or consent by a student being bullied does not lessen or negate the prohibitions contained in this policy.

Retaliation against a victim, good faith reporter, or a witness

of bullying is prohibited.

False accusations or reports of bullying against another student are prohibited.

A person who engages in an act of bullying, reprisal, retaliation, or false reporting of bullying or permits, condones, or tolerates bullying shall be subject to discipline or other remedial responses for that act in accordance with the school district's policies and procedures, including the school district's discipline policy (See Policy 506). The school district may take into account the following factors:

1. The developmental ages and maturity levels of the parties involved;
2. The levels of harm, surrounding circumstances, and nature of the behavior;
3. Past incidences or past or continuing patterns of behavior;
4. The relationship between the parties involved; and
5. The context in which the alleged incidents occurred.

Consequences for students who commit prohibited acts of bullying may range from remedial responses or positive behavioral interventions up to and including suspension and/or expulsion. The school district shall employ research-based developmentally appropriate best practices that include preventative and remedial measures and effective discipline for deterring violations of this policy, apply throughout the school district, and foster student, parent, and community participation.

Consequences for employees who permit, condone, or tolerate bullying or engage in an act of reprisal or intentional false reporting of bullying may result in disciplinary action up to and including termination or discharge.

Consequences for other individuals engaging in prohibited acts of bullying may include, but not be limited to, exclusion from school district property and events.

The school district will act to investigate all complaints of bullying reported to the school district and will discipline or take appropriate action against any student, teacher, administrator, volunteer, contractor, or other employee of the school district who is found to have violated this policy in a fair and equitable manner.

Reporting Procedure

Any person who believes he or she has been the target or victim of bullying or any person with knowledge or belief of conduct that may constitute bullying or prohibited conduct under this policy shall report the alleged acts immediately to an appropriate school district official designated by this policy. A person may report bullying anonymously. However, the school district may not rely solely on an anonymous report to determine discipline or other remedial responses.

The school district encourages the reporting party or complainant to use the report form available from the principal or building supervisor of each building or available in the school district office, but oral reports shall be considered complaints as well.

The building principal, the principal's designee, or the building supervisor (hereinafter the "building report taker") is the person responsible for receiving reports of bullying or other prohibited conduct at the building level. Any person may report bullying or other prohibited conduct directly to a school district human rights officer or the superintendent. If the complaint involves the building report taker, the complaint shall be made or filed directly with the superintendent or the school district human rights officer by the reporting party or complainant.

The building report taker shall ensure that this policy and its procedures, practices, consequences, and sanctions are fairly and fully implemented and shall serve as the primary contact on policy and procedural matters. The building report taker or a third party designated by the school district shall be responsible for the investigation. The building report taker shall provide information about available community resources to the target or victim of the bullying or other prohibited conduct, the perpetrator, and other affected individuals as appropriate.

A teacher, school administrator, volunteer, contractor, or other school employee shall be particularly alert to possible situations, circumstances, or events that might include bullying. Any such person who witnesses, observes, receives a report of, or has other knowledge or belief of conduct that may constitute bullying or other prohibited conduct shall make reasonable efforts to address and resolve the bullying or prohibited conduct and shall inform the building report taker immediately. School district personnel who fail to inform the building report taker of conduct that may constitute bullying or other prohibited conduct or who fail to make reasonable efforts to address and resolve the bullying or prohibited conduct in a timely manner may be subject to disciplinary action.

Reports of bullying or other prohibited conduct are classified as private educational and/or personnel data and/or confidential investigative data and will not be disclosed except as permitted by law. The building report taker, in conjunction with the responsible authority, shall be responsible for keeping and regulating access to any report of bullying and the record of any resulting investigation.

Submission of a good faith complaint or report of bullying or other prohibited conduct will not affect the complainant's or reporter's future employment, grades, work assignments, or educational or work environment.

The school district will respect the privacy of the complainant(s), the individual(s) against whom the complaint is filed, and the witnesses as much as possible, consistent with the school district's obligation to investigate, take appropriate action, and comply with any legal disclosure obligations.

School District Action

Within three days of the receipt of a complaint or report of bullying or other prohibited conduct, the school district shall undertake or authorize an investigation by the building report taker or a third party designated by the school district.

The building report taker or other appropriate school district officials may take immediate steps, at their discretion, to protect the target or victim of the bullying or other prohibited conduct, the complainant, the reporter, and students or others, pending completion of an investigation of the bullying or other prohibited conduct, consistent with applicable law.

The alleged perpetrator of the bullying or other prohibited conduct shall be allowed the opportunity to present a defense during the investigation or prior to the imposition of discipline or other remedial responses.

Upon completion of an investigation that determines that bullying or other prohibited conduct has occurred, the school district will take appropriate action. Such action may include, but is not limited to, restorative practices, remediation, warning, suspension, exclusion, expulsion, transfer, termination or discharge. Disciplinary consequences will be sufficiently severe to try to deter violations and to appropriately discipline prohibited conduct. Remedial responses to the bullying or other prohibited conduct shall be tailored to the particular incident and nature of the conduct and shall take into account the factors specified in Section II.F. of this policy. School district action taken for violation of this policy will be consistent with the requirements of applicable collective bargaining agreements; applicable statutory authority, including the Minnesota Pupil Fair Dismissal Act; the student discipline policy (See Policy 506) and other applicable school district policies; and applicable regulations.

The school district is not authorized to disclose to a victim private educational or personnel data regarding an alleged perpetrator who is a student or employee of the school district. School officials will notify the parent(s) or guardian(s) of students who are targets of bullying or other prohibited conduct and the parent(s) or guardian(s) of alleged perpetrators of bullying or other prohibited conduct who have been involved in a reported and confirmed bullying incident of the remedial or disciplinary action taken, to the extent permitted by law.

In order to prevent or respond to bullying or other prohibited conduct committed by or directed against a child with a disability, the school district shall, when determined appropriate by the child's individualized education program (IEP) team or Section 504 team, allow the child's IEP or Section 504 plan to be drafted to address the skills and proficiencies the child needs as a result of the child's disability to allow the child to respond to or not to engage in bullying or other prohibited conduct.

Retaliation or Reprisal

The school district will discipline or take appropriate action against any student, teacher, administrator, volunteer, contractor, or other employee of the school district who commits an act of reprisal or who retaliates against any person who asserts, alleges, or makes a good faith report of alleged bullying or prohibited conduct, who provides information about bullying or prohibited conduct, who testifies, assists, or participates in an investigation of alleged bullying or prohibited conduct, or who testifies, assists, or participates in a proceeding or hearing relating to such

bullying or prohibited conduct. Retaliation includes, but is not limited to, any form of intimidation, reprisal, harassment, or intentional disparate treatment. Disciplinary consequences will be sufficiently severe to deter violations and to appropriately discipline the individual(s) who engaged in the prohibited conduct. Remedial responses to the prohibited conduct shall be tailored to the particular incident and nature of the conduct and shall take into account the factors specified in Section II.F. of this policy.

Training and Education

The school district shall discuss this policy with school personnel and volunteers and provide appropriate training to school district personnel regarding this policy. The school district shall establish a training cycle for school personnel to occur during a period not to exceed every three school years. Newly employed school personnel must receive the training within the first year of their employment with the school district. The school district or a school administrator may accelerate the training cycle or provide additional training based on a particular need or circumstance. This policy shall be included in employee handbooks, training materials, and publications on school rules, procedures, and standards of conduct, which materials shall also be used to publicize this policy.

The school district shall require ongoing professional development, consistent with Minn. Stat. § 122A.60, to build the skills of all school personnel who regularly interact with students to identify, prevent, and appropriately address bullying and other prohibited conduct. Such professional development includes, but is not limited to, the following:

1. Developmentally appropriate strategies both to prevent and to immediately and effectively intervene to stop prohibited conduct;
2. The complex dynamics affecting a perpetrator, target, and witnesses to prohibited conduct;
3. Research on prohibited conduct, including specific categories of students at risk for perpetrating or being the target or victim of bullying or other prohibited conduct in school;
4. The incidence and nature of cyberbullying; and
5. Internet safety and cyberbullying.

The school district annually will provide education and information to students regarding bullying, including information regarding this school district policy prohibiting bullying, the harmful effects of bullying, and other applicable initiatives to prevent bullying and other prohibited conduct.

The administration of the school district is directed to implement programs and other initiatives to prevent bullying, to respond to bullying in a manner that does not stigmatize the target or victim, and to make resources or referrals to resources available to targets or victims of bullying.

The administration is encouraged to provide developmentally appropriate instruction and is directed to review programmatic instruction to determine if adjustments are necessary to help students identify and prevent or reduce bullying and other prohibited conduct, to value diversity

in school and society, to develop and improve students' knowledge and skills for solving problems, managing conflict, engaging in civil discourse, and recognizing, responding to, and reporting bullying or other prohibited conduct, and to make effective prevention and intervention programs available to students.

The administration must establish strategies for creating a positive school climate and use evidence-based social-emotional learning to prevent and reduce discrimination and other improper conduct.

The administration is encouraged, to the extent practicable, to take such actions as it may deem appropriate to accomplish the following:

1. Engage all students in creating a safe and supportive school environment;
2. Partner with parents and other community members to develop and implement prevention and intervention programs;
3. Engage all students and adults in integrating education, intervention, and other remedial responses into the school environment;
4. Train student bystanders to intervene in and report incidents of bullying and other prohibited conduct to the schools' primary contact person;
5. Teach students to advocate for themselves and others;
6. Prevent inappropriate referrals to special education of students who may engage in bullying or other prohibited conduct; and
7. Foster student collaborations that, in turn, foster a safe and supportive school climate.

The school district may implement violence prevention and character development education programs to prevent or reduce policy violations. Such programs may offer instruction on character education including, but not limited to, character qualities such as attentiveness, truthfulness, respect for authority, diligence, gratefulness, self-discipline, patience, forgiveness, respect for others, peacemaking, and resourcefulness.

The school district shall inform affected students and their parents of rights they may have under state and federal data practices laws to obtain access to data related to an incident and their right to contest the accuracy or completeness of the data. The school district may accomplish this requirement by inclusion of all or applicable parts of its protection and privacy of pupil records policy (See Policy 515) in the student handbook.

Notice

The school district will give annual notice of this policy to students, parents or guardians, and staff, and this policy shall appear in the student handbook.

This policy or a summary thereof must be conspicuously posted in the administrative offices of the school district and the office of each school.

This policy must be given to each school employee and

independent contractor who regularly interacts with students at the time of initial employment with the school district.

Notice of the rights and responsibilities of students and their parents under this policy must be included in the student discipline policy (See Policy 506) distributed to parents at the beginning of each school year.

This policy shall be available to all parents and other school community members in an electronic format in the language appearing on the school district's or a school's website.

The school district shall provide an electronic copy of its most recently amended policy to the Commissioner of Education.

Policy Review

To the extent practicable, the school board shall, on a cycle consistent with other school district policies, review and revise this policy. The policy shall be made consistent with Minn. Stat. § 121A.031 and other applicable law. Revisions shall be made in consultation with students, parents, and community organizations.

Policy 526 – Hazing Prohibition (6-28-21)

The purpose of this policy is to maintain a safe learning environment for students and staff that is free from hazing. Hazing activities of any type are inconsistent with the educational goals of the school district and are prohibited at all times.

No student, teacher, administrator, volunteer, contractor or other employee of the school district shall plan, direct, encourage, aid or engage in hazing.

No teacher, administrator, volunteer, contractor or other employee of the school district shall permit, condone or tolerate hazing.

Apparent permission or consent by a person being hazed does not lessen the prohibitions contained in this policy.

Retaliation against a victim, good faith reporter, or a witness of hazing is prohibited.

False accusations or reports of hazing against a student, teacher, administrator, volunteer, contractor, or other employee are prohibited.

A person who engages in an act of hazing, reprisal, retaliation, or false reporting of hazing or permits, condones, or tolerates hazing shall be subject to discipline or other remedial responses for that act in accordance with the school district’s policies and procedures.

Consequences for students who commit, tolerate, or are a party to prohibited acts of hazing may range from remedial responses or positive behavioral interventions up to and including suspension and/or expulsion.

Consequences for employees who permit, condone, or tolerate hazing or engage in an act of reprisal or intentional false reporting of hazing may result in disciplinary action up to and including termination or discharge.

This policy applies to hazing that occurs during and after school hours, on or off school premises or property, at school functions or activities, or on school transportation.

A person who engages in an act that violates school policy or law in order to be initiated into or affiliated with a student organization shall be subject to discipline for that act.

The school district will act to investigate all complaints of hazing and will discipline or take appropriate action against any student, teacher, administrator, volunteer, contractor or other employee of the school district who is found to have violated this policy.

The school district shall treat complainants and respondents equitably.

Definitions relating to hazing prohibition can be found in Appendix I of this Policy 526.

Reporting Procedures

Any person who believes he or she has been the target or victim of hazing or any person with knowledge or belief of conduct which may constitute hazing shall report the alleged acts immediately to an appropriate school district official designated by this policy. A person may report hazing anonymously. However, the school district may not rely solely on an anonymous report to determine discipline or other remedial responses.

The school district encourages the reporting party to use the report form available from the principal or building supervisor of each building or available from the school district office, but oral reports shall be considered complaints as well.

The building principal, the principal's designee, or the building supervisor (hereinafter the "building report taker") is the person responsible for receiving reports of hazing at the building level. Any adult school district personnel who receives a report of hazing prohibited by this policy shall inform the building report taker immediately. Any person may report hazing directly to a school district human rights officer or to the superintendent. If the complaint involves the building report taker, the complaint shall be made or filed directly with the superintendent or the school district human rights officer by the reporting party or complainant.

The building report taker shall ensure that this policy and its procedures, practices, consequences, and sanctions are fairly and fully implemented and shall serve as a primary contact on policy and procedural matters.

A teacher, administrator, volunteer, contractor, and other school employees shall be particularly alert to possible situations, circumstances or events which might include hazing. Any such person who witnesses, observes, receives

a report of, or has other knowledge or belief of conduct which may constitute hazing shall make reasonable efforts to address and resolve the hazing and shall inform the building report taker immediately. School district personnel who fail to inform the building report taker of conduct that may constitute hazing or who fail to make reasonable efforts to address and resolve the hazing in a timely manner may be subject to disciplinary action.

Submission of a good faith complaint or report of hazing will not affect the complainant or reporter's future employment, grades, work assignments, or educational or work environment.

Reports of hazing are classified as private educational and/or personnel data and/or confidential investigative data and will not be disclosed except as permitted by law. The building report taker, in conjunction with the responsible authority, shall be responsible for keeping and regulating access to any report of hazing and the record of any resulting investigation.

The school district will respect the privacy of the complainant(s), the individual(s) against whom the complaint is filed, and the witnesses as much as possible, consistent with the school district's legal obligations to investigate, to take appropriate action, and to comply with any discovery or disclosure obligations.

School District Action

Within three (3) days of the receipt of a complaint or report of hazing, the school district shall undertake or authorize an investigation by school district officials or a third party designated by the school district.

The building report taker or other appropriate school district officials may take immediate steps, at their discretion, to protect the target or victim of the hazing, the complainant, the reporter, and students, or others pending completion of alleged hazing prohibited by this policy.

The alleged perpetrator of the hazing shall be allowed the opportunity to present a defense during the investigation or prior to the imposition of discipline or other remedial responses.

Upon completion of an investigation that determines hazing has occurred, the school district will take appropriate action. Such action may include, but is not limited to, warning, suspension, exclusion, expulsion, transfer, remediation, termination or discharge. Disciplinary consequences will be sufficiently severe to try to deter violations and to appropriately discipline prohibited behavior. School district action taken for violation of this policy will be consistent with the requirements of applicable collective bargaining agreements, applicable statutory authority, including the Minnesota Pupil Fair Dismissal Act, and applicable school district policies, and regulations.

The school district is not authorized to disclose to a victim private educational or personnel data regarding an alleged perpetrator who is a student or employee of the school district. School officials will notify the parent(s) or guardian(s) of students who are targets or victims of hazing and the parent(s) or guardian(s) of alleged perpetrators of hazing

who have been involved in a reported and confirmed hazing incident of the remedial or disciplinary action taken, to the extent permitted by law.

In order to prevent or to respond to hazing committed by or directed against a child with a disability, the school district shall, where determined appropriate by the child's individualized education program (IEP) team or Section 504 team, allow the child's IEP or Section 504 plan to be drafted to address the skills and proficiencies the child needs as a result of the child's disability to allow the child to respond to or not to engage in hazing.

Retaliation or Reprisal

The school district will discipline or take appropriate action against any student, teacher, administrator, volunteer, contractor or other employee of the school district who commits an act of reprisal or who retaliates against any person who asserts, alleges, or makes a good faith report of alleged hazing who provides information about hazing, who testifies, assists, or participates in an investigation of alleged hazing, or who testifies, assists or participates in a proceeding or hearing relating to such hazing. Retaliation includes, but is not limited to, any form of intimidation, reprisal or harassment, or intentional disparate treatment. Disciplinary consequences will be sufficiently severe to deter violations and to appropriately discipline the individual(s) who engage in the prohibited conduct. Remedial responses to the prohibited conduct shall be tailored to the particular incident and nature of the conduct.

Dissemination of Policy

This policy shall appear in each school's student handbook and in each school's building and staff handbooks.

The school district will develop a method of discussing this policy with students and employees.

Policy 531 - Pledge of Allegiance (4-26-21)

The school board recognizes the need to display an appropriate United States flag and to provide instruction to students in the proper etiquette, display, and respect of the flag. The purpose of this policy is to provide for recitation of the Pledge of Allegiance and instruction in school to help further that end.

Students in this school district shall recite the Pledge of Allegiance to the flag of the United States of America one or more times each week. The recitation shall be conducted:

- By each individual classroom teacher or the teacher's surrogate; or
- Over a school intercom system by a person designated by the school principal or other person having administrative control over the school.

Exceptions

Anyone who does not wish to participate in reciting the Pledge of Allegiance for any personal reasons may elect not to do so. Students and school personnel must respect another person's right to make that choice.

Instruction

Students will be instructed in the proper etiquette toward, correct display of, and respect for the flag and in patriotic exercises.

Policy 711 – Digital/Electronic Recording on School Buses (1-15-21)

The transportation of students to and from school is an important function of the school district, and transportation by the school district is a privilege and not a right for an eligible student. The behavior of students, employees and/or contractors on the bus is a significant factor in the safety and efficiency of school bus transportation. Student, employee and/or contractor misbehavior increases the potential risks of injury. Therefore, the school district recognizes the role of digital/electronic recording of students, employees and/or contractors in promoting safety. The purpose of this policy is to establish a school bus digital/electronic recording system that promotes safety and protects the rights of all students, employees and/or contractors.

- Placement
 1. Each and every school bus owned, leased, contracted and/or operated by the school district may be equipped with a fully-enclosed box for placement and operation of a video camera and conspicuously placed signs notifying riders that their conversations or actions may be recorded. Parents will be notified before the beginning of the school year that video cameras may be used on school buses and that their students may be videotaped.
 2. Digital/electronic recording devices will not necessarily be installed in each and every school bus owned, leased, contracted and/or operated by the school district, but cameras may be rotated from bus to bus without prior notice to students.
 3. Digital/electronic recording devices may be placed on a particular school bus, to the extent possible, where the school district has received complaints of inappropriate behavior.
- Use of Digital/electronic recording
 1. A digital/electronic recording of the actions of student, employee and/or contractor passengers may be used by the school district as evidence in any disciplinary action brought against any student, employee and/or contractor, arising out of the individual's conduct on the bus.
 2. A digital/electronic recording will be released only in conformance with the Minnesota Government Data Practices Act, Minn. Stat. Ch. 13 and the Family Educational Rights and Privacy Act, 20 U.S.C. §1232g and the rules and/or regulations promulgated thereunder.
 3. Digital/electronic recordings will be viewed by school district personnel on a random basis and/

or when discipline problems on the bus have been brought to the attention of the school district.

4. The digital/electronic recording will be retained by the school district until relooped or until the conclusion of disciplinary proceedings in which the digital/electronic recording is used for evidence.

Notification of Pesticide & Herbicide Application

ISD199 is required to inform parents, guardians, and school employees that the District applies certain pesticides and herbicides on school property. Because of such variables as weather, it is impossible to realistically predict the day on which herbicides will be applied. As a general rule, the District applies only one herbicide—dandelion preventer—twice per year during the summer break in June and August, during times when there is no scheduled use of the affected area. Because the District applies pesticides only on an as-needed basis, it is likewise impossible to predict when they will be applied. A pest elimination service inspects each building monthly, and applies only category IV pesticides in affected areas, on average twice per year in each building, and always on non-school days. Category IV pesticides are in the least harmful category, and are not regulated by this law.

If you would like to be notified prior to pesticide or herbicide application, or if you have any questions about this or any other health or safety issue, feel free to contact the ISD 199 Health & Safety Coordinator at 651-306-7867.
